STRATEGIC OBJECTIVES

FOREWORD BY THE MAYOR

Our planning for 2020/21 took place at a time the Nation was under severe attack of COVID-19 pandemic which has limited a lot of activities including our interaction with our stakeholders and communities in preparing our IDP/Budget. The effects of this disease on our usual consultation activities and service delivery programme has been immense.

Most of our projects and programmes from 2019/20 financial year had stalled while revenue collection has also suffered because of the National Lockdown. We still believe that the lockdown as declared by the President was necessary to preserve lives and save humanity. The 2020/21 IDP/Budget will also serve as catch-up plan for lost days so that we meet our targets for the previous year and continue with implementation of our plans for new year.

The IDP serves as a tool which we use to prioritise our projects and allocate required budget and resources. It also serves as a performance management tool and a basis for accountability

chain for all role players; from administration to communities and to our government departments, audit committee and Auditor General. We will as such use the opportunity of this planning cycle to consolidate our last years' work as we enter the last months of our five years' council term. We have tried our best in addressing the needs of our citizens during this tenure and we are also thankful of what has thus far been received from other spheres of government and private sector to develop our communities. But more still has to be done as we push back the frontiers of triple challenges of poverty, inequality and unemployment. The progressive "pro-poor" agenda we adopted when we came into office in 2016 – from the ANC Election Manifesto – would be skewed if we did not continue with our noble gesture of a social package for the most vulnerable and indigent members of society. This we do because we believe in a better life for all.

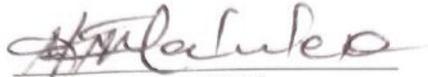

We believe that the District Development Model launched by the President Ramaphosa in 2019 will increase our pace of service delivery and improve integration of such programmes to our communities. This IDP is therefore a part of our Municipal Development Plan which is in line with both the Provincial and National Development Plans.

Collins Chabane Municipality has a vision that coincides with the 2030 NDP, and envisage to achieve a spatially integrated and sustainable local economy by that year.

So far we have completed a number of projects and there is a visible change within our locality. We still have plans that even the upcoming Council will take pride from and joyfully contribute to the betterment of people's lives and thus, deepen democracy.

I would like to thank all our stakeholders who participated in the compilation of this IDP/Budget by giving us inputs and feedback on the draft document. Our words of appreciation also go to our teams internally; staff, management, all our councillors and political parties- who played a central role in crafting the 2020/21 Draft IDP and Budget.

May we continue to take precautions and adhere to the Central Command Council's recommendations in the fight against the spread of Covid-19. This means washing our hands regularly with soap; keeping the social distance; avoiding shaking hands; using hand-sanitizers; avoiding gatherings of huge crowds unless in cases where it is absolutely impossible; wearing our masks and wearing them correctly; and teaching others about the same.

CLLR MALULEKE M

MAYOR: COLLINS CHABANE MUNI.

FOREWORD BY THE MUNICIPAL MANAGER.

Collins Chabane Local Municipality is dedicated to addressing the needs of communities effectively and in a transparent manner within the jurisdiction of the municipality. The municipality is embraced by the edge to persist being focused on what is expected, as a Local Government.

The municipality like any other in the world, faces an imperceptible challenge that has engulfed the entire globe, the COVID-19 pandemic, which has become a power to reckon with in our everyday livelihood. Safe to acknowledge that COVID-19 brought imbalances and predicaments.

The pandemic has fashioned a quicksand to the world and has diverted attention from critical service delivery programs, to a balance of life and economic survival. The result of the above meant a lot of sacrifice to both human and government in ensuring a critical paradigm shift in our livelihood.

These affected the planning processes inclusive of the IDP, Budget and Performance Management of many municipalities in the country and Collins Chabane Local Municipality is not immune to those challenges. In terms of the Local Government: Municipal Systems Act (no. 32 of 2000) requires that Municipalities draw up an integrated Development Plan (IDP), a strategic document, which all developments in a Municipal area are based upon. The IDP is the principal planning instrument that guides and informs the Municipal budget. It is a plan that does not only concentrates on other provisions of Municipal services, but also seeks to alleviate poverty, boost Local Economic Development, eradicate unemployment and promote the process of reconstruction and development. However, the municipality endured the dire symptoms of the pandemic resorting to various ways of communication on media platforms to adapt to “The New Normal”.

WhatsApp, Facebook, local radio stations such as MalaFM, Newspaper adverts and sending of electronic documents and the receipt of community inputs became the main means of survival. Meetings with Traditional Leadership, Steering committees and National Treasury meetings became virtual. Public Participation and Council meeting adhering the COVID-19 Regulations also followed suit to minimize physical meetings and the reduction of large gatherings. In great confidence safe to say all IDP and Budget role players have been consulted in the uneasy planning cycle. All sector departments inclusive of Office of the Premier were part of the municipal planning cycle.

However, as we taking stock of our achievement during the 2020/21 financial year, working hard and dedication of the municipality yielded better outcomes in the betterment of communities within the jurisdiction of the municipality. Projects that were implemented and some are still continuing are from the desire that aspires to perspire in tailoring a lifelong sustainable development and local economy. Although much has been done, our communities still find themselves in the arena of poor roads infrastructure, lack of adequate water, sanitation and electricity, and that of unemployment still rears their ugly head. The above have been exacerbated by the current trends of the COVID-19 situation, which has created uncertainty in the minds of our people.

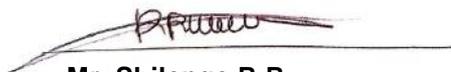

xvi

Vision: “A spatially integrated and sustainable local economy by 2030”

Mission: To ensure the provision of sustainable basic services and infrastructure to improve the quality of life of our people and to grow the local economy for benefit of all citizens

Suffice to indicate that the recent 2021/22 Budget and IDP Review Processes have revealed the extent of our required intervention in addressing the dire needs of our population. As we struggle to address these needs, we also need to ensure that our communities embrace “The New Normal”, which needs to be embraced as part of our survival.

Social Distancing, wearing of Masks, washings of hands and sanitizing ourselves timeously will now become the order of the day. As we embark on the journey in the IDP Bus, traveling closer and closer to arriving safely to our destination, we acknowledge the enormity of our jurisdiction and shall continue to strive in reaching all communities taking them on board towards the destined municipal vision “A spatially integrated and sustainable local economy by 2030”.

Mr. Shilenge R.R
Acting Municipal Manager
Collins Chabane Local Municipality

CHAPTER 1: INTRODUCTION

1.1. EXECUTIVE SUMMARY

The Constitution of the Republic of South Africa commits government to take reasonable measures, within its available resources to ensure that all South Africans have access to adequate housing, health care, education, food, water and social security. To this end Chapter 5 of the Municipal Systems Act, 2000 prescribes that a municipality must undertake developmentally oriented planning to ensure that it achieves the objects of local government as set out in the Constitution.

It is a five-year strategy, with an ultimate objective of improved service delivery and betterment of its community. The IDP as a strategic development plan is reviewed annually to guide all development in a municipal area and inform municipal budgeting and resource allocation. The planning process has been guided by a Council approved IDP Process Plan. The Draft IDP provides key basic service delivery challenges in areas that have been prioritised for 2021 - 2022 financial years and is reviewed annually. It is also based on the multi-year approach principle to enable Municipal Council to have a multi discipline budgetary process.

The process seeks to ensure vertical and horizontal integration between the Municipal planned intervention with the planning efforts of National and Provincial spheres of government as well as within the various sectors of government. The Collins Chabane Local Municipality Integrated Development Plan (IDP) is the primary strategic planning tool which guides and informs all planning, budgeting, management and decision making for the Municipality.

The Municipality has a number of challenges which form part of the priorities in the medium-term and certainly the Long Term Development Strategy. These are high poverty levels, Crime, Unemployment, back log of service delivery, capital funding as well as institutional capacity problems, skills shortage, high level of illiteracy, rural nature, HIV/AIDS epidemic and more certainly the lack of adequate access to basic services.

The world is faced with a deadly virus named the Coronavirus (COVID-19) and South Africa as a Nation is affected. The ongoing COVID-19 pandemic was confirmed by Minister of Health Zweli Mkhize to have spread to South Africa on 5 March 2020, with the first patient being a South African returning from Italy. On 15 March, the President of South Africa, Cyril Ramaphosa, declared a national state of disaster, and announced measures like immediate travel restrictions and the closure of schools from 18 March. On 23 March, a national lockdown was announced, starting on 26 March 2020. The national lockdown continued with levels uplifted from level 5 to level 1. On Monday the 28 December 2020 due to the number of new cases reported wherein South Africa breached the one million mark of confirmed COVID-19 cases the president announced the movement from level one to adjusted level three until the 15 January 2021. On the 28 February the country due to the decrease on the number of reported cases was moved the country from level three to adjusted level one but still with few number of restrictions and wearing a mask as mandatory.

The challenges presented by COVID-19 to organizations, workers and consumers have been evident and severe. As we adjust to a 'new normal', organizations around the world are implementing new ways of working so as the Collins Chabane Local Municipality.

CCLM IDP is in line with the adopted Process Plan that was adopted by council in August 2020. It is also fully compliant to all the COVID-19 regulations without compromising the processes, community participation and Service delivery to the community. This document therefore, is the municipal draft Integrated Development Plan (IDP) of the Collins Chabane Local Municipality for the 2021 - 2022 financial years.

1.2. BACKGROUND

Collins Chabane Local Municipality (CCLM) is a Municipality which was established and came into effect on 3rd August 2016. It was established in terms of Section 12 of the Municipal Structures Act (No. 117 of 1998). The Municipality was formed by the amalgamation of portions of Thulamela Local Municipality and Makhado Local Municipality.

CCLM is one of the four Local Municipalities that constitute the Vhembe District Municipality. The Municipal jurisdiction area covers 5 467.216km² (22° 35´ S 30° 40´ E) in extent with a population of approximately 347 974 people. CCLM has approximately 198 villages and 4 Informal Settlements. There are only 2 proclaimed townships namely Malamulele and Vuwani. In terms of the surveyed settlements a total of 68 settlements have General Plans and it consists of 36 wards.

CCLM is surrounded by Greater Giyani Municipality in the South, Makhado Local Municipality on the West and Thulamela Local Municipality on the North. To the South-East the Municipality's borders extend to Mozambique and on the North-East is Zimbabwe through the Kruger National Park on the east. The Municipality is on the Northern part of Limpopo Province and is situated about 191km from City of Polokwane.

The Municipality has one node of District importance namely Malamulele and three other Municipal nodes which are Saselamani, Vuwani and Hlanganani. The Municipality is flanked by two dominant roads, namely the R81, connects the Municipality via Giyani to Mopani and Polokwane. The R524 connects the Municipality to Kruger National Park to the east and to its North the Municipality connects to Makhado and the N1 via Thulamela Local Municipality.

1.3. LEGISLATIVE FRAMEWORK

1.3.1. Constitution of South Africa Act (no. 108 of 1996)

The Constitution of the Republic of South Africa (Act 108 of 1996) is the supreme law of the country and fundamentally aims to protect human rights and promote democratic governance. The Constitution therefore provides for a new approach to government on National, Provincial and Local Government levels. The new Constitutional model redefines the relationships between the three spheres of government, by replacing the system of a vertical hierarchy of ties, with three overlapping planning process and sets of plans each relating to a different sphere of government. The focus of cooperative governance is however to ensure that scarce resources are used efficiently.

Section 152 of the constitution of the republic of South Africa outline the objects of local government:

Provide democratic and accountable government to all communities;
Ensure the provision of services to communities in a sustainable manner;
Promote social and economic development;
Promote a safe and healthy environment; and
To encourage the involvement of communities and community organisations in the matters of local government

1.3.2. Municipal Systems Act (no. 32 of 2000)

In terms of the Local Government: Municipal Systems Act (no. 32 of 2000) requires that Municipalities draw up an integrated Development Plan (IDP), a strategic document, which all developments in a Municipal area are based upon. The IDP is the principal planning instrument that guides and informs the Municipal budget. It is a plan that does not only concentrates on other provisions of Municipal services, but also seeks to alleviate poverty, boost Local Economic Development, eradicate unemployment and promote the process of reconstruction and development.

Chapter five (5), Section 26 of the Act indicates the core components of an IDP and that such an IDP must reflect the following:

The Municipal council's vision for the long term development of the Municipality with special emphasis on the Municipality's most critical development and internal transformation needs.

An assessment of the existing level of development in the Municipality, which must include an identification of communities which do not have access to basic Municipal services.

The council's development priorities and objectives for its elected term, including its local economic development and internal transformation needs.

The council's development strategies which must be aligned with any National and Provincial sector plans and planning requirements that are binding on the Municipality in terms of legislation.

- ❖ A Spatial Development Framework (SDF) which include the provision of basic guidelines for a land use management system for the Municipality.
- ❖ The council's operational strategies.
- ❖ Applicable disaster management plans.
- ❖ The key performance indicators and performance targets determined in terms of section 41 of the MSA.

Section 34 of the Local Government: Municipal systems Act (no. 32 of 2000) provides for the annual review of the IDP in accordance with an assessment of its performance measurements and to the extent that changing circumstances so demands. The strategic objectives and targets contained in this document were reached subsequent to extensive systematic and structured internal and external consultation through Public Participation mechanisms with the community and stakeholders within the Collins Chabane Local Municipal area of jurisdiction.

1.3.3. Municipal Finance Management Act (no. 56 of 2003)

In addition to compiling an IDP, it is also a legislative requirement, in terms of the Municipal Systems Act and the Municipal Finance Management Act (2003) that the Municipality's IDP be reviewed on an annual basis. The aim of the review is to ensure that the municipal planning takes into account changing circumstances.

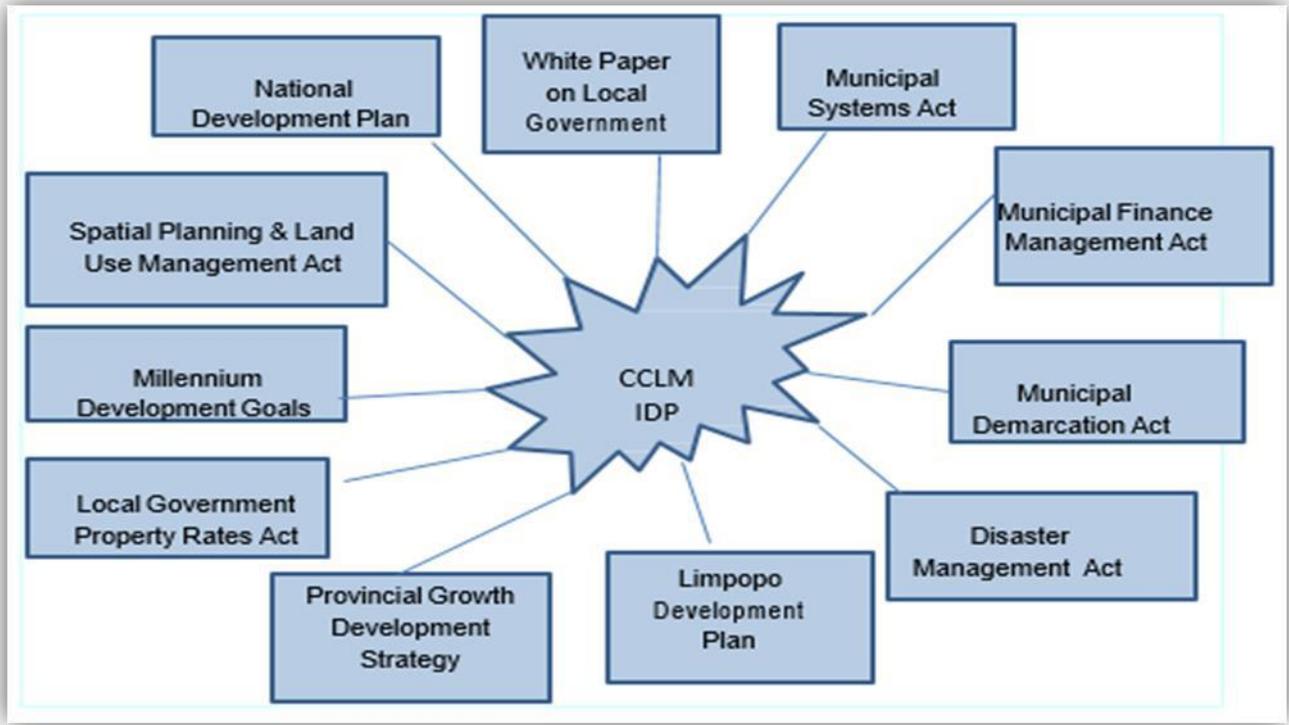

Section 16(2): of the LG: Municipal Finance Management Act (56 of 2003)- requires the Executive Mayor to table the budget at least 90 days before start of the financial year – 30 March every year.

Section 24(1) of the LG: Municipal Finance Management Act (56 of 2003) stipulates that approval of Annual budget by Council to be submitted 30 days before the start of the financial year to Council for consideration.

The IDP comprises a package of documents. Other documents and instruments that support the IDP include the municipal budget, the Service Delivery Budget Implementation Plan (SDBIP), various sector plans to support and direct the work of different functional areas of the Municipality, and ward plans.

The IDP process is predominantly guided by various legislations, policies and guides which were carefully considered when the document is compiled. These policies, guides and legislative frameworks include amongst others as outlined in the figure 1 below.

FIGURE 1.5.: Legislative framework

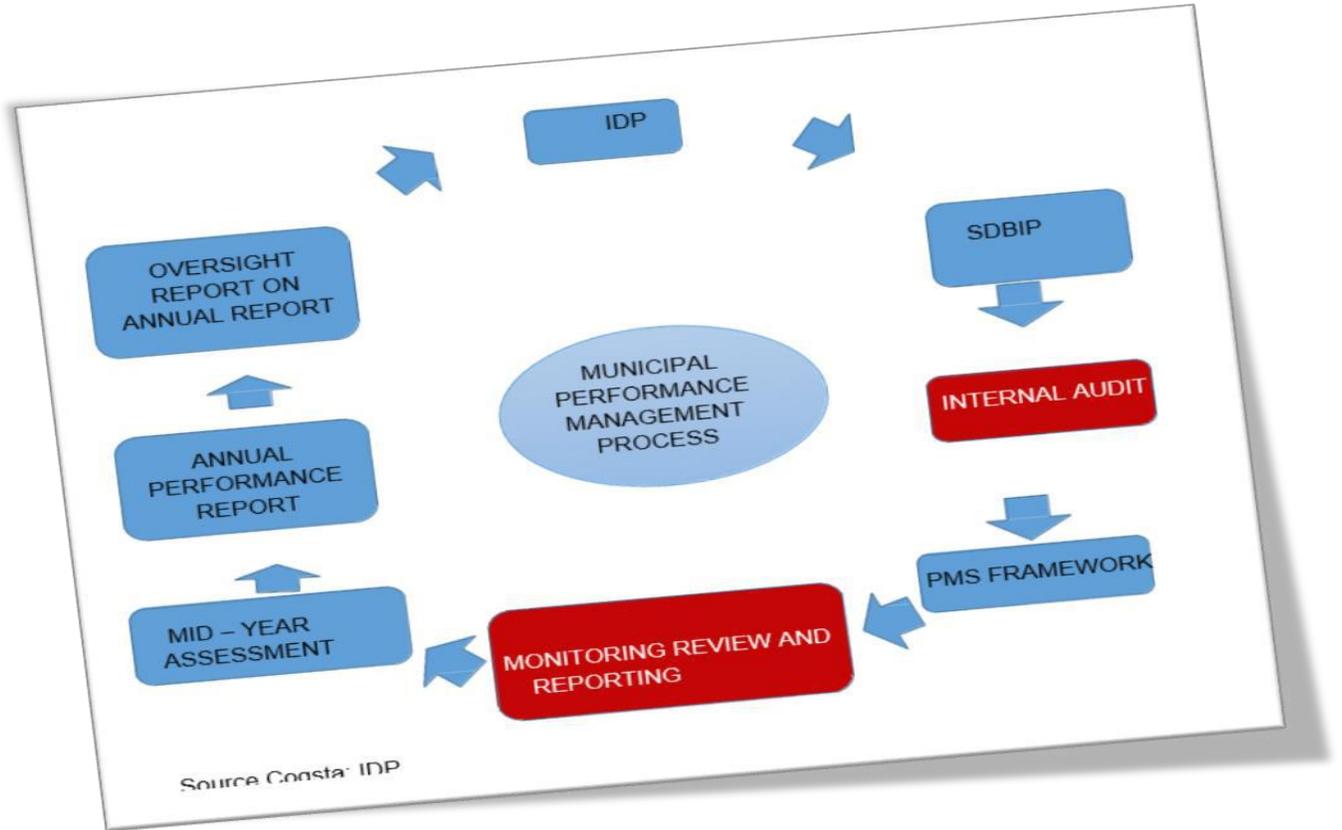

Source: COGHSTA

The IDP outlines: An analysis of Collins Chabane Local Municipal area, and current trends and issues.

- ❖ The National and regional policy context for preparing IDPs (NDP, LDP etc.).
- ❖ Communities' needs for service delivery as expressed through various engagements.
- ❖ The findings of various medium and longer term sector plans, as required by law and supporting and directing the work of different functional areas of the Municipality.
- ❖ The Municipality's overall strategy and way of work for the next five-years, including focus areas, predetermined objectives and activities.
- ❖ The Municipality's broad financial plan and planned allocation of resources.
- ❖ Related monitoring and evaluation activities over the year ahead.

1.6. INSTITUTIONAL STRUCTURES TO DRIVE THE IDP

In order to manage the drafting of IDP outputs effectively, Collins Chabane Local Municipality institutionalized the participation process thereby giving affected parties access to contribute to the decision-making process. The following structures, linked to the internal organizational arrangements will be established:

IDP Steering committee chaired by the Municipal Manager, and composed as follows: Senior Managers, Managers, Projects Managers, Technicians and Professionals.

IDP Representative forum chaired by The Mayor and composed by the following Stakeholder's formations "inter alia: Collins Chabane Local Municipality and the District Municipality, Governmental Departments i.e. (District, Provincial and National Sphere's representatives), Traditional leaders, People with disability, Parastatals, NGO's and CBO's, Pastors forum, Traditional Leaders, Sector Departments, Youth, CDW's, Ward Committees, Youth Structures, Business Forum, Women's Structures.

IDP Clusters chaired by departmental Senior Managers and composed of experts, officials, and professionals from all spheres of government: Governance and Administration, Economic, Social, Infrastructure, and Justice Clusters.

1.7. IDP PLANNING PROCESS PLAN, ROLE AND PURPOSE

Local development priorities, identified in the IDP process, constitute the backbone of the local governments' budgets, plans, strategies and implementation activities. Hence, the IDP forms the policy framework on which service delivery, infrastructure development, economic growth, social development, environmental sustainability and poverty alleviation rests. The IDP therefore becomes a local expression of the government's plan of action as it informs and is informed by the strategic development plans at National and Provincial spheres of government.

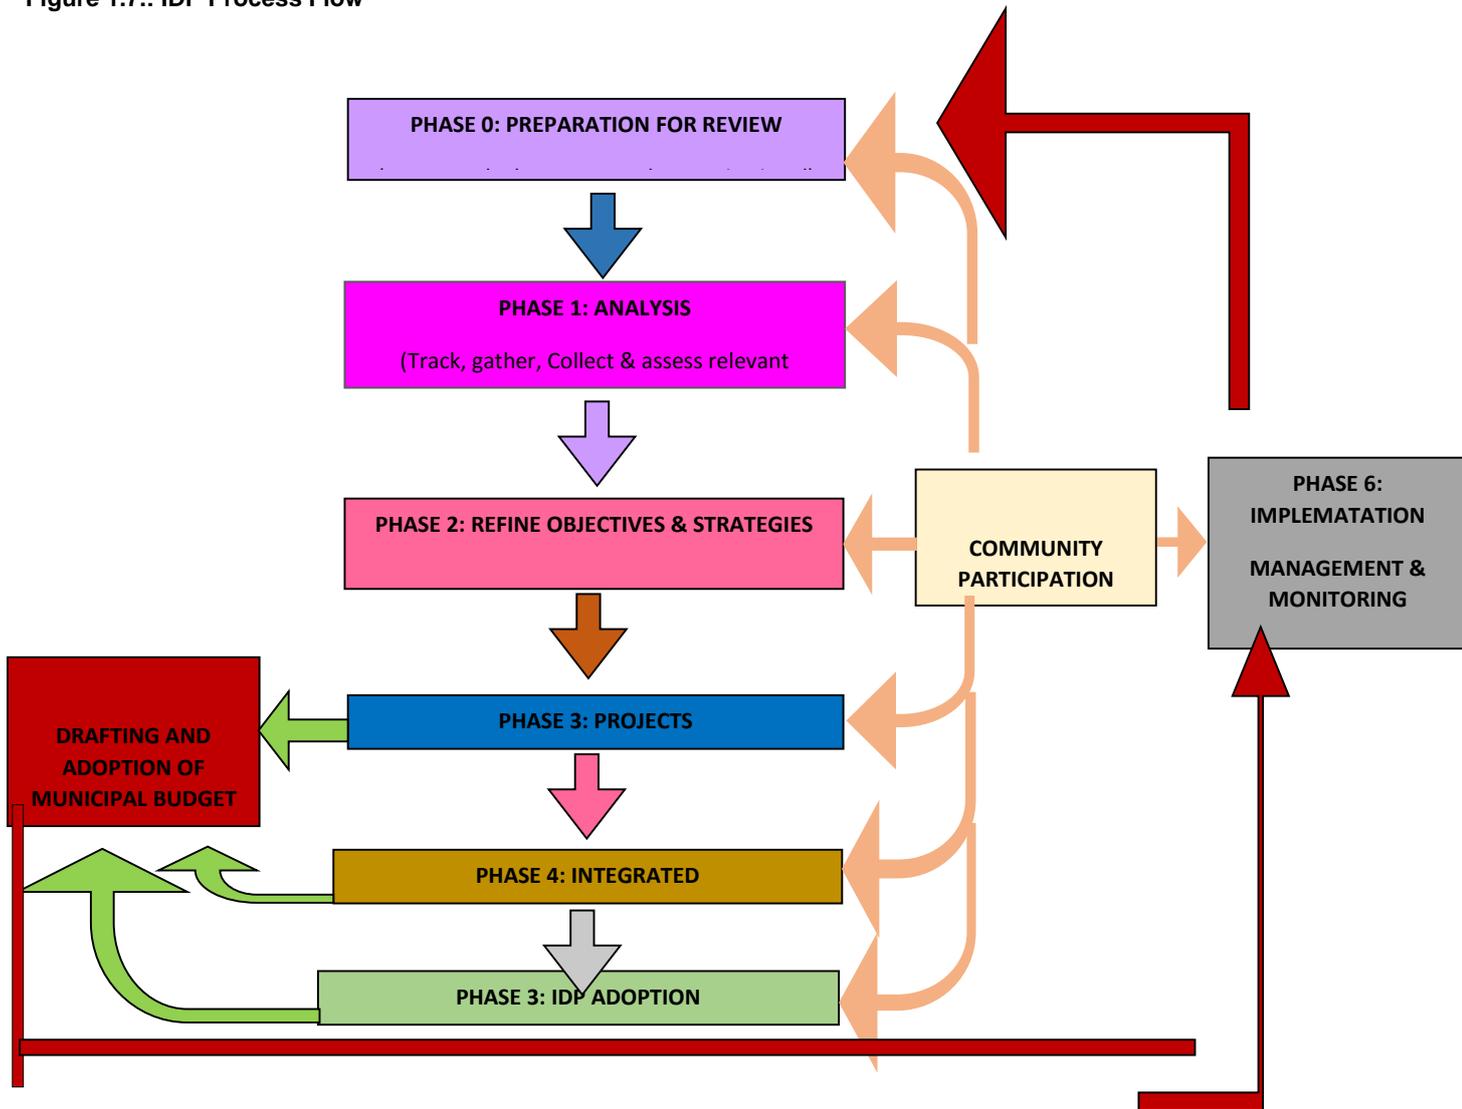

The focus of the IDP is varied, and includes the provision of basic Municipal services, measures for building and transforming the Municipal capacity, measures to assist in expanding livelihood opportunities for citizens, enterprise development, building a dignified and safe living environment, and, crucially, exploring new ways of working and living together.

The IDP is informed by a leadership agenda – as contained in National and Provincial policy documents-as well as the needs of local citizens and public, private community structures.

Moreover, in terms of Section 29 (2) & (3) of the MSA a District Municipality must develop an Integrated Development Framework for its area of jurisdiction, in close consultation with the Local Municipalities in that area. A Local Municipality must align its Process Plan with the Framework adopted in terms of Section 27 (i.e. District Framework Plan).

1.7.2.1. MECHANISM AND PROCEDURES FOR PUBLIC PARTICIPATION

The following means of communication are used to inform the community about Public Participation Meetings: Local Newspapers, Local Radio Stations, Municipal Bill Boards, Microsoft Teams and Website etc. The media of instruction is the language understood by the general community.

The venue and times for public meetings is communicated at least three weeks before the commencement of the Public Participation meetings via the Ward councillors and Local Newspapers. The IDP & Budget documents is always made available in all Libraries across the Municipal area three weeks before commencement of Public Participation meetings.

Before the start of the meetings, the Department of Public Safety assesses the environment and possibilities of any protest or disruptions of meetings in order to come up with contingency plan.

1.7.2.2. MECHANISM AND PROCEDURE FOR ALIGNMENT

Vhembe District Municipality has established the district wide IDP coordination meetings which are attended by all Local Municipalities within its jurisdiction, CoGHSTA and other sector Departments. These meetings are served to align the District Framework with the Local Municipality's IDP and Budget Process Plans.

CoGHSTA also coordinates all the sector departments within Limpopo Province to present their respective plan in order to ensure that there is alignment of plans and programs under different phases of government.

The process plan for the Collins Chabane Local Municipality is guided by the Vhembe District IDP Framework as adopted by Vhembe District Municipality during a council meeting held in August 2020. This is to ensure proper district alignment with all the strategic plans. The IDP process plan for Collins Chabane Local Municipality for 2021/22 financial year was also presented and adopted at a Rep Forum held on **12th August 2020**. It was then approved and adopted by Municipal Council on the **27th August 2020** with Council resolution: **A01/27/08/2020**

1.7.5. Summary of Process Plan Implementation

1.7.5.1. Analysis Phase

It is always critical for the Municipality to understand the current existing situation within the jurisdiction of the Municipal area. An in depth diagnosis assessment was done by the Municipality in relation to the levels of development, service delivery gaps or challenges, causes of existing problems, identification of priority issues (issues that needed to be addressed first), and available resources to help deal with identified challenges or problems.

With the “New Normal” Covid 19 regulation comes with restrictive conditions mostly for contact meetings and gathering. However, to ensure that all stakeholder and the community at large receives first-hand information, the municipality also uses Local News Papers, Municipal Websites, Whatsapp Group, Virtual Meetings and Local Radio Stations such as MalaFM.

The Municipality conducted extensive Rep Forum and Public Participation meetings for the collection of community needs. The Municipality advertised the Rep Forum and Public Participation meetings as per the MSA (no. 32 of 2000) on the Local News Paper and Radio Station. Ward councillors informed all the stakeholders in their wards. Traditional Leaders, community members, NGOs, Parastatals, and Sector Departments were invited to attend the Public Participation meetings.

1.7.5.2. Strategy Phase

A strategic session was held on the 4th to the 7th December 2020 at Tzaneen County Lodge, it comprised of the Traditional Leaders, Portfolio Head, Municipal Manager, Senior Managers, Managers and officials to discuss on the future development direction. Collins Chabane Local Municipality's vision, mission statement and strategies have not changed. These are still to fulfil objectives of service delivery through the Integrated Development Planning. Strategies were developed on how to address all the Communities Needs, by prioritising them and coming up with projects. The Municipal SWOT analysis was reviewed to project the status quo of the Municipality.

1.7.5.3. Project Phase

Proposed projects have been collected from departments and they are informed by situational analysis and resolutions from the strategic planning session. Spatial Planning, Community Services and Technical services have been very critical in providing support to ensure proper implementation and management for effective service delivery. This process assisted in coming up with multi-year projects and the new ones which must form part of the draft IDP. All the Technicians were requested cost the projects correctly to avoid the shortage of funds during the implementation. Most of the capital projects were prioritised and budgeted under the MIG grant.

1.7.5.4. Integration Phase

The CCLM has integrated its capital projects as informed by the vision, objectives and strategies developed and resources available for the effective implementation of the project in the IDP. That has been seen as putting more emphasis on the implementation of the management strategic meeting resolutions. However, as part of the integration phase, a IDP and Budget Representative Forum will be held during April 2021 with various sector departments with the intentions of aligning sector plan with the IDP.

FINAL REVIEWED IDP 2021/22 FY

Vhembe District Municipality hosted its Virtual Strategic Planning Workshop from the 3rd to the 5th March 2021 and the District Municipality together with sector departments presented projects that will be implemented around Collins Chabane Local Municipality.

1.7.5.5. Approval Phase

The 2021/22 (Draft) IDP was tabled to Management on the 16th March 2021, Budget Committee on the 18th March 2021, Executive Committee on the 25th March 2021 and Audit Committee on the 29th March 2021. The Draft IDP was then tabled to Council on the 31st March 2021 for adoption and approval for public participation.

Collins Chabane will be conducting its IDP public participation in clusters complying with COVID-19 regulations wherein structures will be sending their representatives as follows:

It included religious, political and cultural gatherings wherein a maximum number of people allowed at any gathering is 100 people indoors and 250 people outdoors.

SECTION A: ANALYSIS PHASE

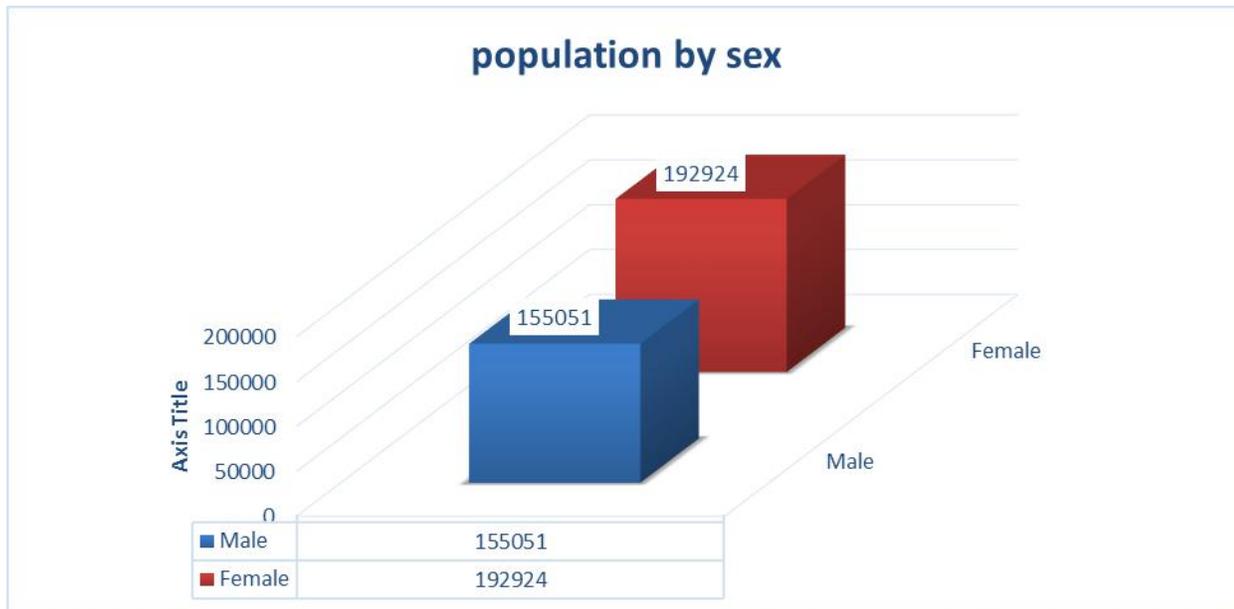

CHAPTER 2: DEMOGRAPHIC PROFILE

The purpose of this section is to provide information regarding the development context as well as the population trends of the Municipality.

2.1. POPULATION TRENDS AND COMPOSITION

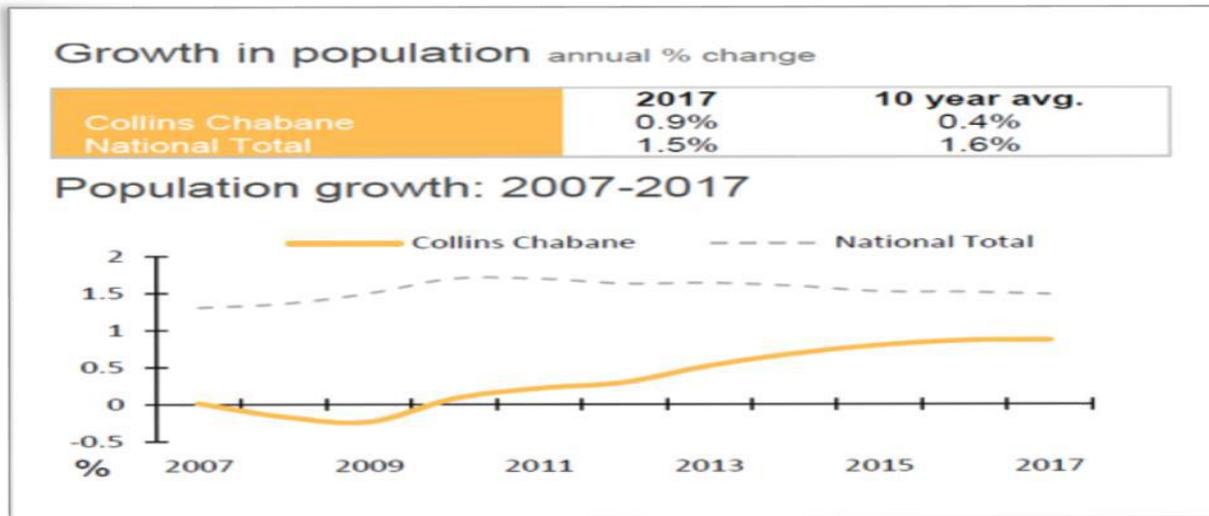

Figure 2.1.1. Suggests a population of approximately 347 974 people residing at Collins Chabane Local Municipality according to Stats SA. The population is a little unequal by gender or sex. There are more women than men.

Figure 2.1.1.: Population by sex

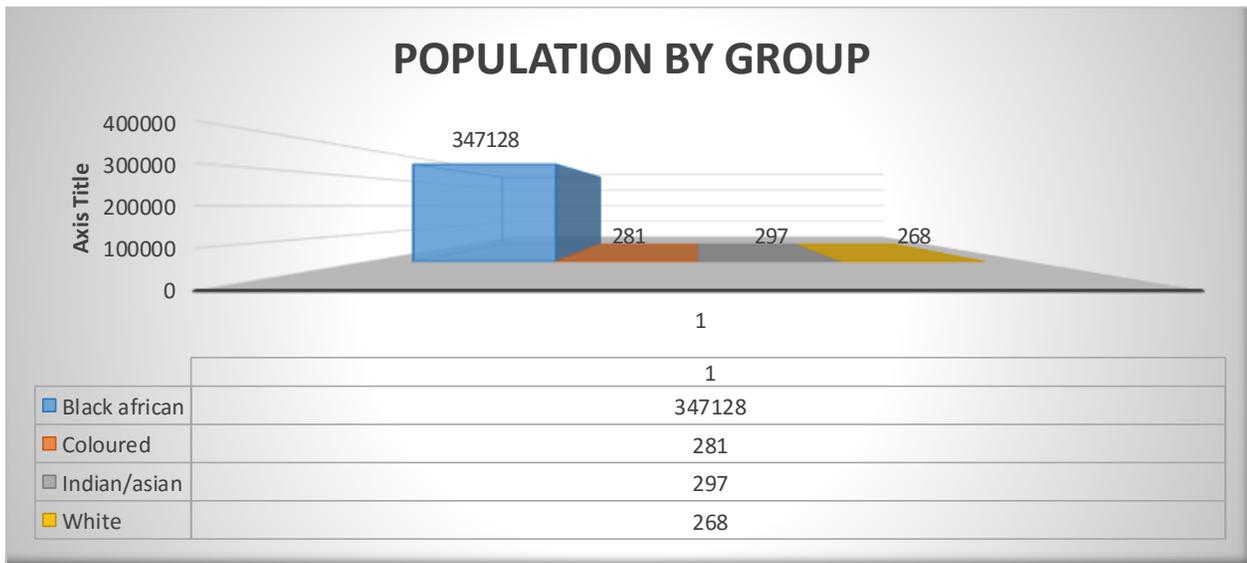

Figure 2.1.2.: Population Growth

Source: VDM IDP, 2018/19

This graph shows the annual growth rate in the population of Collins Chabane Local Municipality. The average growth rate is 0.9% for 2017 against 1.5% of the total National growth over 10 years.

Figure 2.1.3.: Population group

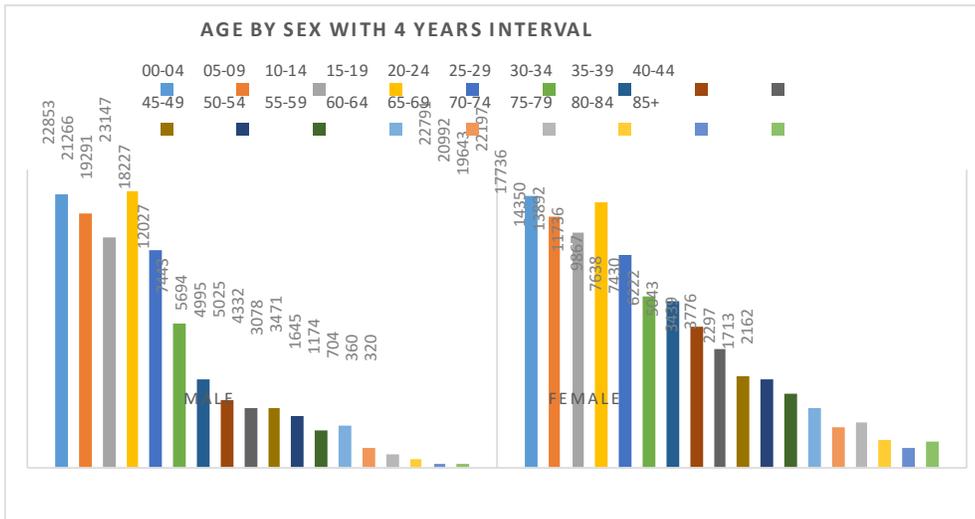

Source Stats SA, 2016 Community Survey

The figure above shows the population distribution by group Collins Chabane Local Municipality. A total of 347 974 people are residing within the Municipal jurisdiction. A total number of (347 128) are Black Africans and have the highest number of people staying in Collins Chabane Local Municipal area. The second highest are Indian/Asian with (297) people, Coloureds (281) and Whites (268) are residing at Collins Chabane Local Municipality.

2.2. POPULATION AGE AND GENDER DISTRUBTION

The age and gender profile provides valuable insight into the composition of the market population and will help establish the Potential Economically Active population (PEA). The PEA population refers to the population that falls within the working age group (between 15 and 64 years). It does not mean that this entire portion of the population is prepared or able to be employed. For example, some prefer to stay at home as housekeepers, some are disabled and others are fulltime students, or have given up looking for work. They do, however, form part of the potential labour pool. Depicting from Figure 2.2.1., it is evident that the population in Collins Chabane Local Municipality is relatively youth.

Figure 2.2.1.: Age by sex with 4 years interval

Source Stats SA, 2016 Community Survey

Further, the figure above shows the number of population that falls within the 0-14 age group is almost equivalent to the youth, which gives an indication of the large number of the population that will be entering the labour market in the future.

This point out the following;

- ❖ The need for the Department of Education to provide basic education facilities.
- ❖ The need for the creation of recreational facilities.
- ❖ The need for improved basic service delivery.
- ❖ The need for and job creation.
- ❖ The need to establishment of townships to cater for the maturing youth.
- ❖ The need for expansion of CBD and Business- Park.
- ❖ The need for road expansions and creation of intermodal transport facilities.
- ❖ The need to improve and provision of health care facilities

2.3. MIGRATION

People have various reasons for moving from one area to another. 0.54% of people move to the Vhembe district because of education reason as indicated in table 3.9 below. Job opportunity reasons attracted 0.88% in the district of which Musina local municipality (LM) attracted 0.49% followed by 0.18% of Thulamela, 0.17% Makhado and 0.04% CCLM.

The table above shows Thulamela Local Municipality leading in terms of educational inwards migration by 0.33% followed by Makhado local municipality with 0.11%. Musina local municipality is leading in terms of jobs transfer and new job opportunities as indicated in table 3.9 below. This should be of great concern for Collins Chabane Local Municipality to attract investors to develop institutions of higher learning, massive development for economic activities, improve tourism facilities and township establishments to enable people to migrate to CCLM for various activities. These will also assist in the municipal GDP.

CHAPTER 3: COMMUNITY NEEDS

3.1. STAKEHOLDER ENGAGEMENT AND CONSULTATION IN THE IDP PROCESS

Community and stakeholder participation in matters of local government is a cornerstone of democracy. Section 152 of the South African Constitution (Act 108 of 1996) put it succinctly that: “*the objects of local government includes, amongst others, the encouragement of involvement of community and community organisations in matters of local government*”.

Furthermore, the Local Government: Municipal Systems Act (Act 32 of 2000) (Sec 16) states that a Municipality must develop a culture of Municipal governance that complements formal representative government with a system of participatory governance, and must for this purpose encourage, and create conditions for the local community to participate in the affairs of the Municipality, including in the preparation, implementation and review of its integrated development plan.

In order to give effect to the above legislative provisions, the Collins Chabane Local Municipality has adopted a Public Participation strategy that outlines the processes, mechanisms, and procedures for community and stakeholder participation. The participation of communities is driven through a Ward Committee System managed by the Public Participation Unit located in the Office of the Speaker and the IDP Representative Forum arranged through the Office of the Mayor.

Moreover, the Municipality’s Public Participation process comprises of community meetings, cluster meetings, Mayoral Imbizo(s), Speakers Outreach programmes, chamber of business and commercial stakeholder’s engagements and traditional leader’s engagements. The Municipal IDP needs to take into consideration the views of the local community members and interest groups as expressed through various processes and forums.

3.2. EFFECTIVE COMMUNITY PARTICIPATION

It is the experience of Municipalities that Public Participation related to IDP mainly raises issues around the immediate living conditions of the community. Many of these issues raised by the communities are therefore not of a long term or strategic nature.

CHAPTER 4: SPATIAL RATIONALE

This section outlines how the municipality strive to integrated issues of planning and community development. According to Section 26 of the MSA the Municipal Spatial Development Framework (MSDF) must be aligned to the IDP. All other spatial plans must be aligned with the MSDF. Therefore, no spatial plan of the municipality may contradict the MSDF or the IDP. Section 35(2) of the MSA, indicates that a spatial development framework contained in the integrated development plan prevails over a plan defined in section 1 of the Physical Planning Act, 1991 (Act No. 125 of 1991). Section 1 of the Physical Planning Act defines 'plan' as a national plan, a regional development plan, a regional development plan, a regional structure plan or an urban structure plan.

This section gives an overview of the spatial analysis of Collins Chabane Local Municipal area. Collins Chabane Local Municipality is a newly established Municipality, established after the August 2016 Local Government Elections. The Municipal council of the Collins Chabane Local Municipality adopted the Municipal Spatial Development Framework (MSDF) and Land Use Scheme (LUS) in August 2018 which is aligned to the Spatial Planning and Land Use Management Act, 2013 (Act 16 of 2013) (SPLUMA).

The spatial analysis exercise provides a visual picture of the existing spatial pattern (nodes, networks and areas) that has emerged in the Municipal area. This analysis serves to describe the Municipal area in spatial terms and understand how space is utilized in the Municipality. It also looks at settlement patterns and growth points (nodes), population concentration areas, land claims and their socio-economic implications. All these aspects have a bearing on future land usage, infrastructure investment, establishment of sustainable human settlements, public transport and local economic development.

4.1. SPATIAL RATIONALE

The Spatial Rationale gives an overview of the settlement hierarchy based on the classification of settlements, in terms of town or village. Figure 10 and map 4 gives an overview of the spatial rationale of Collins Chabane Local Municipality area.

Table 4.1.: Hierarchy of Settlements

Type	Characteristics	Area
District Growth Point	Very well positioned along the National and Provincial movement network.	Malamulele
First Order Settlement	Function as high order service centres Have relatively large local populations.	
Municipal Growth Point	Large rural clusters with small economic bases.	Saselamani, Vuwani and Hlanganani
First Order Settlement	Accessible via the Provincial road network.	

FINAL REVIEWED IDP 2021/22 FY

Population Concentration Points Second Order Settlement	Towns/villages or group of villages located close to each other and have substantial number of people located in these villages.	Tiyani, which include areas such as Mahatlani, Majosi, Ribungwani and Bungeni, Masia which includes Vyeboom & Kurhuleni Ramukhuba)
Local Service Points Third order Settlements	Situated in the midst of a high number of small scattered villages. Focus needs to be on community infrastructure.	Mukhomi, Xikundu, Olifantshoek and Tshimbupfe A & B and Mulenzhe
Village Service Areas Fourth Order Settlements		All Other Villages

Source: CCLM SDF, 2018

4.1.1. SETTLEMENT PATTERNS

CCLM has approximately 198 villages and 4 Informal Settlements. There are only 2 proclaimed townships namely Malamulele and Vuwani and also 2 RDP Townships. In terms of the surveyed settlements a total of 68 settlements have General Plans.

4.1.2. SPATIAL FEATURES

- ❖ Unstructured land development resulting in a distorted spatial pattern (un-proclaimed areas)
- ❖ Increase in unplanned human settlements.
- ❖ Unsecure land tenure (Malamulele B Ext 1 & 2; Malamulele D Ext 1, 2 & 3)
- ❖ Land invasions in Malamulele and Vuwani
- ❖ Unregistered Municipal properties.
- ❖ Illegal Land Uses (Malamulele and Vuwani)

4.1.3. SPATIAL DEVELOPMENT FRAMEWORK (SDF)

The Collins Chabane Local Municipality has adopted its first SDF in 2018 with council resolution: A016/29/03/2018 following all the processes that are prescribed in terms of law. It was approved in terms of the Municipal Systems Act, 2000 (Act 32 of 2000) and serves as a guide to decision making in development and land use planning. This section therefore outlines the spatial vision, analysis, strategic framework and desired spatial pattern of the Collins Chabane Local Municipality.

Chapter 4 of the Spatial Planning and Land Use Management Act (Act 16 of 2013) requires each Municipality to prepare a spatial development framework that will, amongst others, guide planning and development decisions across all sectors of government. It must also interpret and represent the spatial development vision of the responsible sphere of government and competent authority which is informed by a long term spatial development vision statement and plan. Section 26 of the Municipal Systems Act (Act 32 of 2000), as amended, also dictates that a Municipalities integrated development plan must reflect a spatial development framework which must include the provision of basic guidelines for the land use management system.

A Municipal Spatial Development Framework (MSDF) is a long-term (10-20 year) development framework which articulates the vision, goals and objectives of the Municipality spatially through strategies designed to address physical, social and economic shortcomings. It co-ordinates the spatial implications of all strategic sector plans of a Municipality. An MSDF is also one of the core components of a Municipal IDP and gives physical effect to the vision, goals and objectives of the Municipal Integrated Development Plan (IDP).

The primary aims and objectives of the SDF

To create a spatially based policy framework whereby change, needs and growth in the Collins Chabane Local Municipal area are to be managed positively to the benefit of everyone. It should focus on how land should be used within the broader context of protecting the existing values of the Collins Chabane Local Municipal area i.e. tourism destination, rich historical and cultural areas.

- ❖ To improve the functioning of the local urban and rural, as well as the natural environmental systems.
- ❖ Identification of local opportunities for future urban/ rural development, and natural environmental conservation, and make recommendations as to where and how development of the open space system should be managed.
- ❖ To establish strategies and policies to achieve the desired spatial form i.e. movement and linkage systems, open space system, activity system, overall land use pattern etc.

4.1.3.1. Nodes

The CCLM SDF aligns to 4 of the 2015-2019 Limpopo Development plan strategic objectives which are allied with the Medium-Term Strategic Framework. The strategic objectives include ensuring inclusive growth, decent work and sustainable livelihoods, investment in economic and social infrastructure (improve access to quality education and healthcare); rural development, food security and land reform; cohesive and sustainable communities; and sustainable resource management and use. Within these strategic objective the LDP 2015-2019 designed 4 key pillars of intervention which includes:

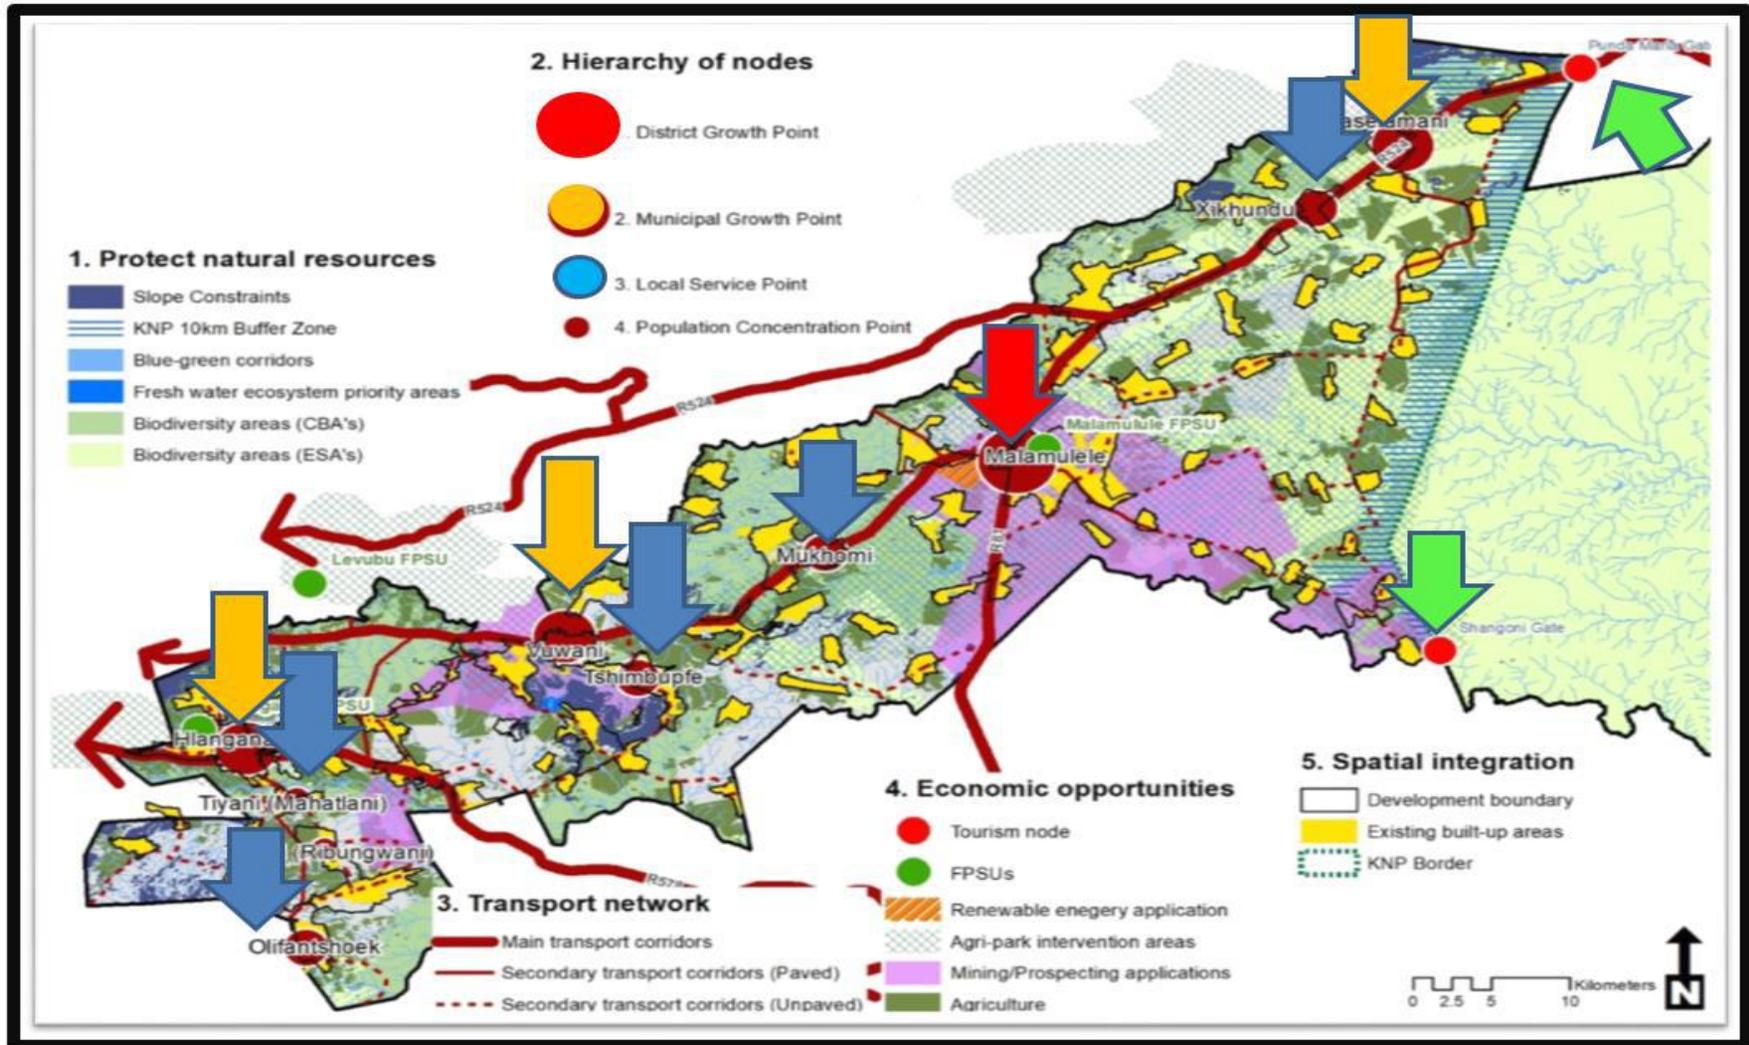

- ❖ Economic development and transformation
- ❖ Infrastructure development
- ❖ Building developmental state
- ❖ Social Cohesion and transformation.

The CCLM SDF acknowledges that equal financial investment within these 4 pillars and across the entire Municipality will not be financially viable nor sustainable and for this reason, it sets out a nodal hierarchy which will inform investment. This spatial rational introduces establishment of Nodal Points within the Municipality. The SDF has identified Nodal Points that are a District Growth Point, Municipal Growth Points, Local Service Points and Population Concentration Points. The SDF has identified core areas comprising of four Municipal Nodes namely: Malamulele; Saselamani; Hlanganani/ Nkuzana and Vuwani. These Nodes are located along roads/development corridors and within which to concentrate development. It is proposed that development should be focused within these nodes so that they become places where services are rendered at a central point to communities.

Furthermore, the SDF identifies Population Concentration Points which act as economic feeders to the identified Nodal Points. It is proposed that in these areas investments should focus on social facilities in order to increase accessibility to social facilities and effective public transport systems. The identified areas are Magoro concentration area which includes Mahatlani, Majosini, Ribungwani and Bungeni.

Xikundu Mukhomi, Tshimbupfe and Olifantshoek have been identified as Local Service Points whereby the SDF proposes that social services need to consolidate in these areas to effectively serve the extensive surrounding rural communities. The focus on these areas should therefore be on community infrastructure and not necessarily economic infrastructure.

Figure 4.1.: Hierarchy of Nodes

Source: CCLM SDF, 2018

FINAL REVIEWED IDP 2021/22 FY

4.1.3.2. Corridors

In terms of improving access to these nodes, the SDF identified several priority networks which are critical for movements; importation of goods and services; and connectivity. These road networks are critical to connecting local nodes and the Municipality to other Municipalities and the Provinces in order to move goods and services throughout the Municipality.

The SDF identifies several corridors which are of great significant to the Municipality. These corridors include the R578 (between Makhado and Giyani), R81 (Between Giyani and Malamulele) and the R524 (Punda Maria and Thohoyandou) which are main transport corridors that provide access to the different major areas in the Municipality.

These main corridors need to be prioritised for maintenance by SANRAL/RAL. Other identified corridors include secondary roads which provide links between nodes and villages which are mostly District roads which should be prioritised for tarring (if gravel) as well as maintenance to facilitate public transport and flow of passengers through the Municipality.

The SDF also proposes that the road linking Malamulele to Altein should be prioritised as it could become a very important tourism corridor with the establishment of the Shangoni Gate and Tourism Node.

4.2. LAND USE COMPOSITION AND MANAGEMENT TOOLS –LUS/GIS

CCLM has adopted a Land Use Scheme (LUS). It is a planning tool that allows or restricts certain types of land uses to certain geographic areas in accordance with the Spatial Planning and Land Use Management Act, 2013 (Act 16 of 2013). The Collins Chabane Local Municipality Council adopted its first Land Use Scheme in 2018 which is operational and will be due for review after 5 years.

A Geographic Information System (GIS) assists with the information regarding land development and upgrading. The Municipality is still in the process of developing its own GIS program.

4.2.1. Spatial Planning Policies and By-Laws

- ❖ SPLUMA By-Laws , 2018
- ❖ Street Trading By-law, 2018
- ❖ Noise Control By-law, 2018
- ❖ Advertising and Billboards By-law, 2018
- ❖ Hardware Storage of Goods By-laws, 2018
- ❖ Car Wash By-laws, 2018
- ❖ Place of Public Worship By-law, 2018
- ❖ Tuck Shops By-laws, 2018
- ❖ Public Open Spaces By-law, 2018
- ❖ Transportation of Goods By-laws, 2018
- ❖ Densification Policy , 2018
- ❖ Rental Housing Policy, 2018

4.2.2. Implementation of SPLUMA

- i. The Spatial Planning and Land Use Management Act No. 16 of 2013 was enacted by the State in August 2013 as a result the following Acts were repealed:
 - Removal of Restrictions Act No.84 of 1967
 - Physical Planning No 88 of 1967
 - Physical Planning No 125 of 1991
 - Development Facilitation Act No.67 of 1995
 - Less Formal Township Establishment

FINAL REVIEWED IDP 2021/22 FY

ii. The objectives of the SPLUMA are:

- To promote greater consistency and uniformity in the application procedures and decision making by authorities for land user decisions and development applications
- For the establishment of Municipal Planning Tribunals (MPT)
- To provide for a framework for policies, principles norms and standards for spatial planning and land use management
- To address past spatial and regulatory imbalances

iii. General principles of SPLUMA

SPLUMA puts forward a set of principles to influence spatial planning, land use management and land development. It also provides for National and Regional Spatial Development Frameworks as well as provincial and municipal spatial development frameworks, implying that a package of plans will be undertaken from national to municipal level to direct land use management, while providing for uniform regulation of land use management throughout South Africa.

The general principles endorsed by this Act is that Spatial Planning, Land Use Management (SPLUM) and land development must promote and enhance Spatial Justice, Spatial Sustainability; Efficiency; Spatial Resilience, and Good Administration.

4.2.2. Spatial Analysis

The spatial challenges experienced by the Municipality such as scattered settlements have become too costly to provide services. The apartheid spatial pattern is still evident with sprawling rural villages situated in traditional authority areas located far away from employment opportunities, thus becoming too costly for people to travel to their working places. State-owned land is mostly in the custodianship of Traditional Council with a large percentage of land held under leasehold and Permission to Occupy. Because of this, land ownership is regarded as insecure, which in turn acts as a hurdle to land development. The high-level Strengths weakness and opportunities of the Collins Chabane Local Municipality are summarized in the table below.

4.3. ELEMENTS THAT INFLUENCED THE SPATIAL FORM OF COLLINS CHABANE LOCAL MUNICIPALITY AREA

4.3.1. Past Political Ideologies

Apartheid planning resulted in disperse spatial pattern. This created a distorted spatial structure and lead to inefficiencies and backlogs in service provision.

4.3.2. Tribal Authority Areas

Dispersed settlements developed with no order. Ad hoc and unsustainable service and infrastructure development occurred. The apartheid residential is still very much evident with sprawling rural villages situated in traditional authority areas located far away from employment opportunities, thus become too costly for people to travel to their working places

FINAL REVIEWED IDP 2021/22 FY

4.3.3. Land Ownership

State- owned land is mostly under the custodianship of Traditional Authorities. Large percentage of land is held under leasehold title and Permission to Occupy. Because of this, land ownership is regarded as insecure, which in turn acts as a hurdle to land development.

4.3.4. Major Roads

Collins Chabane Local Municipality has development corridors that link to the Municipal Nodal Points such as the D4 from N1, Vleifontein, Elim, Vuwani, Malamulele until Shagoni Gate- Kruger National Park, Thohoyandou to Malamulele- Along Road R524 north from Thohoyandou and turn right to R81 to Malamulele Basani to Saselamani - Along Road R524, Malamulele to Giant reefs- Along a gravel road south east from Malamulele up to Giant Reefs and Malamulele to Giyani - Along Road R81

4.4. INTEGRATED AND SUSTAINABLE HUMAN SETTLEMENT

Human settlement development is currently the sole mandate of The Department, Corporative Governance Human Settlement and Traditional Affairs (CoGHSTA), the Municipality's role is only to facilitate. According to Stats' Community Survey 2016, the number of households in Collins Chabane Municipal area is 91936. The number of households always increase as the population increase.

4.4.1. Household Trends and Human Settlement

Collins Chabane Local Municipality has achieved notable quantitative success in housing delivery, but this has also perpetuated undesirable settlement form. CCLM being a rural municipality has low-density, mono-functional and predominantly low income residential areas on the periphery of municipality with limited related economic opportunity. a good picture is painted through the household trends and the types of dwelling units within the jurisdiction of the municipality.

4. 4.2. Household Trends

The figure below shows that 58% of the households are headed by females and only 42 % is male headed. This is mostly due to male migration to urban areas for job opportunities, high male death rate than women, life expectancy and some due to lack of responsibility resulting to high number of women headed households.

Figure 4.2.: Household Trends

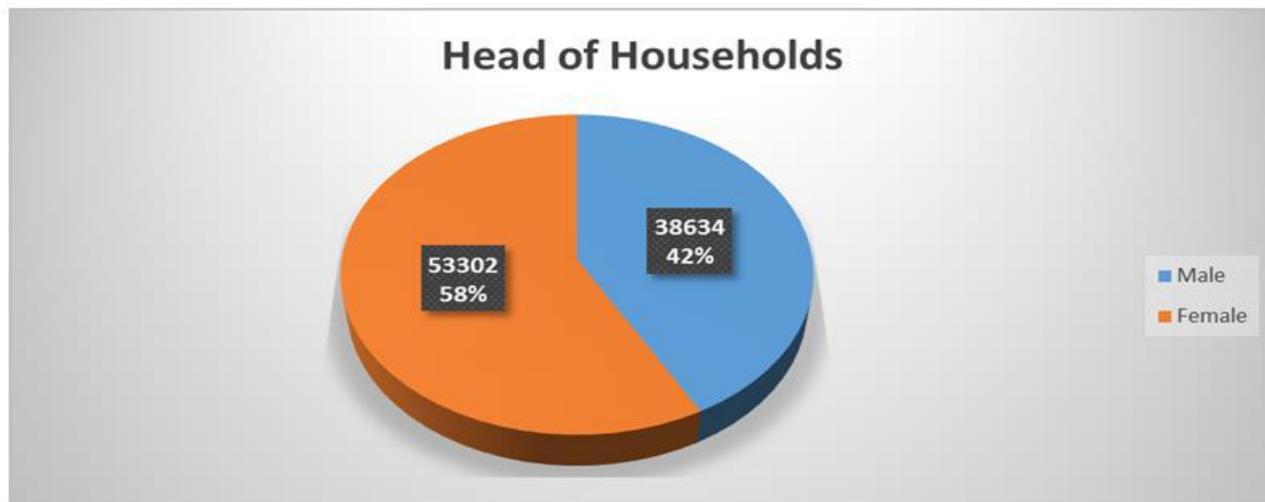

Table 4.4.: Types of dwelling units

The table further indicates that the majority of people in Collins Chabane Local Municipality area resides in “formal dwelling, brick structures”

Collins Chabane Local Municipality has housing backlog is estimated at 10 000 units. However, there the allocation for 2020/21 financial year was 700 housing units and 246 units were constructed and for 2021/22 financial year is 454 which a remainder from 700 units that was not constructed in 2021

4.4.3. Building Inspection

The Collins Chabane Local Municipality Housing and Building Control Unit is also in charge of Building Inspections. The following legislative requirements are used by the Unit on a daily basis in the application and enforcement of the Act on National Building Regulations and Building Standards (Act 103 of 1977) as well as in the evaluation and approval of building plans, demolition and other applications in terms of the following:

- ❖ The National Building Regulations Act (Act 103 of 1977).
- ❖ Architects Act (Act 35 of 1970).
- ❖ Collins Chabane Town Planning Scheme, 2019.

Core Function of building Inspections sub-unit

i. Services provided by building Inspections sub-unit include the following:

- ❖ Building plan evaluation and approval
- ❖ Minor works permit approval (for work such as swimming pools, small 'Wendy' houses)
- ❖ Extension of the validity of an approved building plan
- ❖ Temporary structures permits
- ❖ Demolitions permits
- ❖ Copies of approved building plans

ii. In additions, other responsibilities are:

- ❖ Building Inspection during the construction period
- ❖ Issuing of Occupation Certificates
- ❖ General enforcement of building Regulations
- ❖ Investigation and resolving building complaints, contraventions and illegal building work
- ❖ Maintaining statistics on building construction activities

4.5. SPATIAL RATIONALE CHALLENGES

Table 4.4.: Spatial rationale challenges

CHALLENGES
Backlog in the provision of RDP houses
Lack of individual title deeds (Malamulele and Vuwani) townships.
Unapproved developments.
Prioritization of housing beneficiaries.

CHAPTER 5: BASIC SERVICE DELIVERY AND INFRASTRUCTURE DEVELOPMENT

5.1. WATER AND SANITATION PROVISION

The RSA, Constitution of 1996, guarantees the rights to a basic amount of water and a basic sanitation service that is affordable. Strategic framework for water service define basic water supply as provision of basic water supply facilities, the sustainable operation of facilities and the communication of good water use, hygiene and related practices. Water should be available for at least 350 days per year and not interrupted more than 48 conservative hours per incident. Basic supply facility is defined as the infrastructure necessary to supply 25 litres of portable water per person per day supplied within 200 meters of a household and with a minimum flow of 10 litres per minute i.e. in case of communal water points or 6000 litres of portable water supplied per formal connection per month in case of yard and household connection.

5.1.1. WATER AND SANITATION AUTHORITY

Vhembe District Municipality is the water Service Authority (WSA) and the Provider. Vhembe District is responsible for bulk water supply and sanitation infrastructure. The District purchase bulk raw water from the department of Water Affairs, then process or clean the water for reticulation. The goal of Vhembe District Municipality WSA is to supply every household with an adequate and reliable water supply and to manage the water supply services in an affordable, equitable and sustainable manner.

There is a huge water and sanitation backlog at CCLM. A large number of households already have access to water; however, challenges of upgrading, resource extension, operation and maintenance as well as refurbishment needs are immense. Infrastructure upgrading and refurbishment and reticulations remains the major problems.

5.1.2. WATER CATCHMENT SOURCES IN THE DISTRICT

The Province's water resources are obtained from 4 Water Management Areas (WMAs), namely: The Limpopo, Olifants, Luvuvhu-Letaba and Crocodile West Marico WMAs. In terms of water resources, Nandoni and Vondo RWS falls within the Luvuvhu/Letaba water catchment area which spans across Vhembe and Mopani District Municipalities. The sources of water in the District are from dams, weirs and boreholes: 12 dams are Nandoni, Albasin, Vondo, Nzhelele, Luphephe, Nwanedi, Tshakhuma, Mutshedzi, Capethorn, Damani, Cross and Tshirovha dam. 3 weirs are Mutale, Khalavha and Magoloi weir.

5.1.3. MAIN SOURCE FOR DRINKING WATER

The table below reflects the number of households with access to the different sources/ standards of water provision:

5.1.4. SANITATION

The District is the authority and provider with regards to Sanitation services. Vhembe District has 9 waste water works (Thohoyandou, Makhado, Reitvlei, Malamulele, Maunavhathu, Watervaal, Elim Orbal, Musina Nancefield, Musina Singelele,) 11 Ponds (Mhinga, Tshufulanani, Madzivhandila, Matatshe, Tshitereke, Siloam, Dzanani, Lemana, Vleifontein, Phalama) and 10 Booster pump stations (Riphambeta, Maniini A, Maniini B, Nare Tswana, Mbilwi, Shayandima, Eltivillas, SA Brewery, Musina) in the District. Challenges are Waste water plants receiving more inflow than the design capacity; Vandalism and theft of manhole covers and cables; Introduction of undesirable objects in the sewerage system, Lack of staffing to operate the plant, ageing Infrastructure, over grown shrubs and grass at plants and poor maintenance of sewerage system.

The table below gives an overview of the number of households in Collins Chabane Local Municipality Municipal area access to different toilet facilities.

2019/20	659	688	1347
2020/21	400		4922
TOTAL	4090		8044

The current backlog on electrification of households is **4922**. This shows that CCLM since inception managed to electrify 8044 households.

5.2.2. Electricity Licensing Authority

The Municipality has engage Nersa and Eskom. A letter was written from the Municipality to Nersa indicating the area of interest. Nersa has acknowledge the receipt of the letter. Municipality is now waiting for consent letter from Eskom, indicating that they agree to hand over their assets to the Municipality.

MISA is also assisting the Municipality to acquire a license. The process will take some time before is finalized. Obtaining a license as the Municipality will help to increase revenue collection and create more jobs for the community of Collins Chabane Municipality. However, a fisibility study will be made municiplaities to share best practices with the license for supply and all villages that are not of ESKOM authority will be directly applied from NERSA.

5.2.3. High Mast Lights Installation

The Municipality is responsible for the installation of high mast lights in all its 36 Wards in order to reduce the high rate of crime. The Plan is to install at least three high mast lights per ward, which will make a total of 108 high mast lights for all 36 wards. For 2018/19 Financial Year a total number of 17 high mast were installed at 13 wards. For 2019/20 Financial 32 high mast lights were installed, 12 highmast lights at stadium and 20 at villages. The current financial year 2021/22 projects will install 39 high mast lights to 36 wards. All wards would have been catered for and the baglog will only be on the villages per ward.

5.2.4. Traffic Lights

There are four traffic lights installed at the Municipality at the Malamulele area, which are 100% functional. The Municipality is paying R 1 801.60 per month for all four traffic lights, which worth it because it helps to reduce accident and traffic congestion. Due to traffic congestion at some identified Municipality area, solar traffic lights will be installed at Saselamani four way stop next to taxi rank, Hlanganani four way stop next Vivo garage and Vuwani four way stop. This will help to reduce traffic and accident at a tune of R1 500 000.

5.2.5. Street Lights/High Mast Lights Maintenance

Table 5.4.: The Municipality is responsible for maintenance of street light at the following area:

Village/town	Number of street lights	lights working	lights not working
Malamulele town	505	420	
Makuleke	379	330	49
Mabilingwe	227	217	10
Vuwani	210	150	60

Municipality is paying street lights bill for the above mentioned area every month at a total average cost of R 50 025.75. Maintenance of street lights is not undergoing, only two street lights that are broken at Malamulele section B were maintained because it was an emergency. Street lights are 55% functional for the whole entire Municipal area. Communities are in the dark and risk of increase crime rate while they have access to street lights and high mast light that are not working.

5.3. ROADS AND STORM WATER SERVICES

5.3.1. Roads

It is also through Municipal roads where it becomes evident that Collins Chabane Local Municipality is predominantly rural. A high number of Municipal roads gravel and their conditions only improve through grading. However, a large percentage of the roads are still unpaved and are not tarred.

5.3.2. Pavement of Roads

The Municipality is responsible for Planning, Construction and Maintenance of roads. The entire roads network of our area of jurisdiction amounts to 3465.35 km of the total road network only 75, 1 km of road is paved and there is still a backlog of 3390, 25km.

5.3.3. Street Blading

The Municipality is performing the functions of street blading in order to open and clear access of roads to the community. Currently the Municipality is providing access roads to Schools, Clinics, Cemeteries and Tribal Authority Offices.

5.3.4. Grading Programme

The grading programme is divided into three clusters which are Hlanaganani Cluster, Malamulele Cluster and Saselemani Cluster. One grader is allocated to one Ward for a period of three weeks and this is done on a rotational basis to focus on grading of identified critical areas. Upon lapsing of three weeks regardless of whether all critical identified roads are finalized, the grader is moved to another ward. If it happens that there is a funeral(s) on the same Ward the grader will be assisting in opening access to the cemeteries from the affected family.

In most cases Thursdays and Fridays, the graders will be focusing on opening access to cemeteries as per the requests submitted to the Municipality.

5.3.5. Patching of Potholes

The Municipality is also mandated to patch the potholes at Municipal Roads. The Current situation is that most of tarred roads are deteriorated and have defects and they need to be repaired. The repairs of potholes is an ongoing activity.

5.3.6. Road Marking

The Municipality is further mandated to mark the Municipality roads. Road marking is crucial to communicate information, warnings, demarcate road the lanes and provide safety for road users. Currently the municipality have marked the entire Malamulele town and the VTS.

5.3.7. Speed humps

The Municipality is also mandated to construct speed humps on roads as a traffic calming measure. Due to student's road crossing and speeding road users we provide speed hump as a safety precaution. We have constructed speed humps in Malamulele A and Malamulele C.

5.3.8. Resources

- ❖ 6 x Graders
- ❖ 3 x TLB
- ❖ 12 x Bakkie
- ❖ 16 x Private cars
- ❖ 12 x Truck
- ❖ 2 x Water tanker
- ❖ 1 x Pedestrian Roller

5.3.9. Expanded Public Works Programme (EPWP)

The Expanded Public Works Programme (EPWP) has its origins in Growth and Development Summit (GDS) of 2003. At the Summit, four themes were adopted, one of which was 'More jobs, better jobs, decent work for all'. The GDS agreed that public works programmes 'can provide poverty and income relief through temporary work for the unemployed to carry out socially useful activities'.

The Programme is a key government initiative, which contributes to Governments Policy Priorities in terms of decent work and sustainable livelihoods, education, health; rural development; food security and land reform and the fight against crime & corruption. EPWP subscribes to Outcome 4 which states "Decent employment through inclusive economic growth. "In 2004, the EPWP was launched and is currently still being implemented. The EPWP is a nationwide programme covering all spheres of government and state-owned enterprises.

The EPWP provides labour intensive employment created through the infrastructure sector, social sector, environment sector as well as the non-state sector. These sectors under the EPWP therefore have a dual purpose namely, job creation and upgrading of infrastructure

5.3.9.1. Collins Chabane Projects, Functions and Placement

- Collins Chabane Local Municipality has recently employed 72 EPWP employees through Ward Councillor's recruitment process.
- Employees are allocated to 3 different departments within the Municipality namely:
 - Technical- Infrastructure related projects
 - Corporate(cleansing)- Office cleaning related
 - Community Services- Refuse removal and Horticulture related projects
- Refuse removal and Parks & Beautification activities are currently taking place at Malamulele, Saselamani & Hlanganani areas.

FINAL REVIEWED IDP 2021/22 FY

- For the 2020/2021 financial year, there is a total number of 48 EPWP employees within Community Services Department which are allocated as follows:
- Malamulele: 19 employees
- Saselamani: 10 employees
- Hlanganani: 20 employees

5.3.9.2. EPWP Funding

- EPWP is funded by the National Department of Public Works through IG (Integrated Grant).
- Collins Chabane has been funded R 1 161 000, 00 of which R 585 000 is budgeted for Refuse Removal projects and R 288 000 is for Parks and beautification.

5.3.9.3. Challenges

- There is currently no EPWP coordinator to run the project, attend meetings and report to the EPWP system.
- The number of employees is not enough to cover all the departments (Technical, Community and Cooperate) whereas there is a high demand for manpower on the Community Services: Waste Division.

5.3.10. Mechanical Workshop

Municipality has not yet established a mechanical workshop. For internal maintenance and services of vehicles, machinery. Currently the Municipality is spending lot of money as the services of maintenance are outsourced.

5.4. NODAL ACCESS

Collins Chabane has four Municipal Nodes namely: Malamulele; Saselamani; Hlanganani and Vuwani. These Nodes are located along roads/development corridors meaning that they are accessed through Provincial roads.

Currently the Municipality is busy with the construction of Access roads around the Nodal Areas at:

- ❖ Hlanganani Nodal Area
- ❖ Nwamatatani ring road
- ❖ Mtswetweni to Njhakanjhaka ring road
- ❖ Malamulele Nodal Area
- ❖ Malamulele D internal street
- ❖ Malamulele B internal street
- ❖ Widening of DCO to Malamulele Hospital road

5.5. FREE BASIC SERVICE

The municipality revised its Free Basic Service (FBS) Policy for the purposes ensuring efficient operations and effective responsibility to the qualifying indigent households. There is a form that indigents should fill to verify the status (Pensioner/ grant) of the people through Ward Councillors and ward committee members. There is no dedicated FBS personnel in the municipality to work with all the FBS issues as a result the register is not always updated. However, reapplication of indigent must be done using the KDOS system to determine those who qualify.

Subject to the availability of funding from the Provincial Government, the policy provides assistance to those indigent households who qualify in terms of the set criteria. A household which has a verified total gross monthly income equal or less than 2 times state pension per month will be classified as indigent and will qualify for financial assistance subject to the completion of the relevant documentation including a sworn affidavit. Indigent's households qualify for the following:

- ❖ Full exemption on Property rates
- ❖ 50 kilowatts of electricity per month
- ❖ 50% of monthly charge for normal residential property

5.6. WASTE MANAGEMENT

In recognition of this Constitutional obligation, the municipality has to comply with the national environmental management: Waste Act 59 Of 2008 (Waste Act) and the National Waste Management Strategy (NWMS).

The municipality provides waste management services that include waste collection, street cleaning, clearing of illegal dumping, health care risk waste management and waste disposal. Regular solid waste collection service is provided to business, institutions and households within the jurisdiction of the Municipality.

5.6.1. Refuse Removal Services

About 3321 households are currently receiving refuse removal services once a week, namely Malamulele A, B, C and D. The service is also rendered daily within CBD's and Municipal Nodal points such as Saselemani and Hlanganani area. Vuwani area is now receiving refuse removal services unlike the previous financial years. All proclaimed rural areas within the municipality are serviced once a week with a backlog of approximately 4951 households not serviced due to lack of resources and most not proclaimed.

FINAL REVIEWED IDP 2021/22 FY

5.6.1.1. Integrated Waste Management Plan (IWMP)

Collins Chabane Local municipality has developed the IWMP adopted by council as required by the National Environmental Management Waste Act 59 of 2008 and is integrated into the IDP for proper planning and management of waste.

5.6.1.2. Currently Waste Management is operating with the following refuse vehicles:

- ❖ 06 Compactor Trucks
- ❖ 01 Half Trucks
- ❖ 02 TLB

5.6.2. Land Fill Sites

Collins Chabane Local Municipality has already developed Phase 1 and in process of developing phase 2 of Landfill site for waste disposal. A Category B Landfill Site License has been acquired to operate on the Xigalo Landfil Site however, the municipality is still on completion phase interms of the construction of the Landfil Site. The Municipality is currently disposing their waste in Thulamela Local Municipality Landfill site, and the municipality is billed monthly for waste disposal. There are two Transfer Station, transferred from Thulamela in Mhinga and Mulenzhe village which are not operational.

5.6.3. Environmental Education & Clean Up Campaigns

A plan to conducts clean-up campaigns where community members are encouraged to participate in cleaning the area they reside in is in place, and one clean-up campaign is conducted per month through monthly clean-up campaigns program.

5.6.4. Recycling Initiatives

The National Waste Management Strategy seek to minimise the waste stream going to landfills, while extracting maximum value from the waste stream at all stages of collection and disposal. Collins Chabane Municipality is frequently conducting a recycling education and awareness program which provides residents an opportunity to create additional jobs, and income for the unemployed.

5.6.5. Challenges

Collins Chabane Municipality faces a number of challenges in terms of effective refuse removal services to the whole of Collins Chabane local municipality such as:

- ❖ Insufficient budget,
- ❖ Growing population,
- ❖ Capacity,
- ❖ Lack of appropriate refuse removal equipment to service the area.
- ❖ Improper access/ gravel roads to households.

Waste collection in rural areas is not done systematically therefore Collins Chabane villages in rural areas constitute a backlog. Collins Chabane Municipality has two transfer stations, transferred from Thulamela Municipality which are currently not operational.

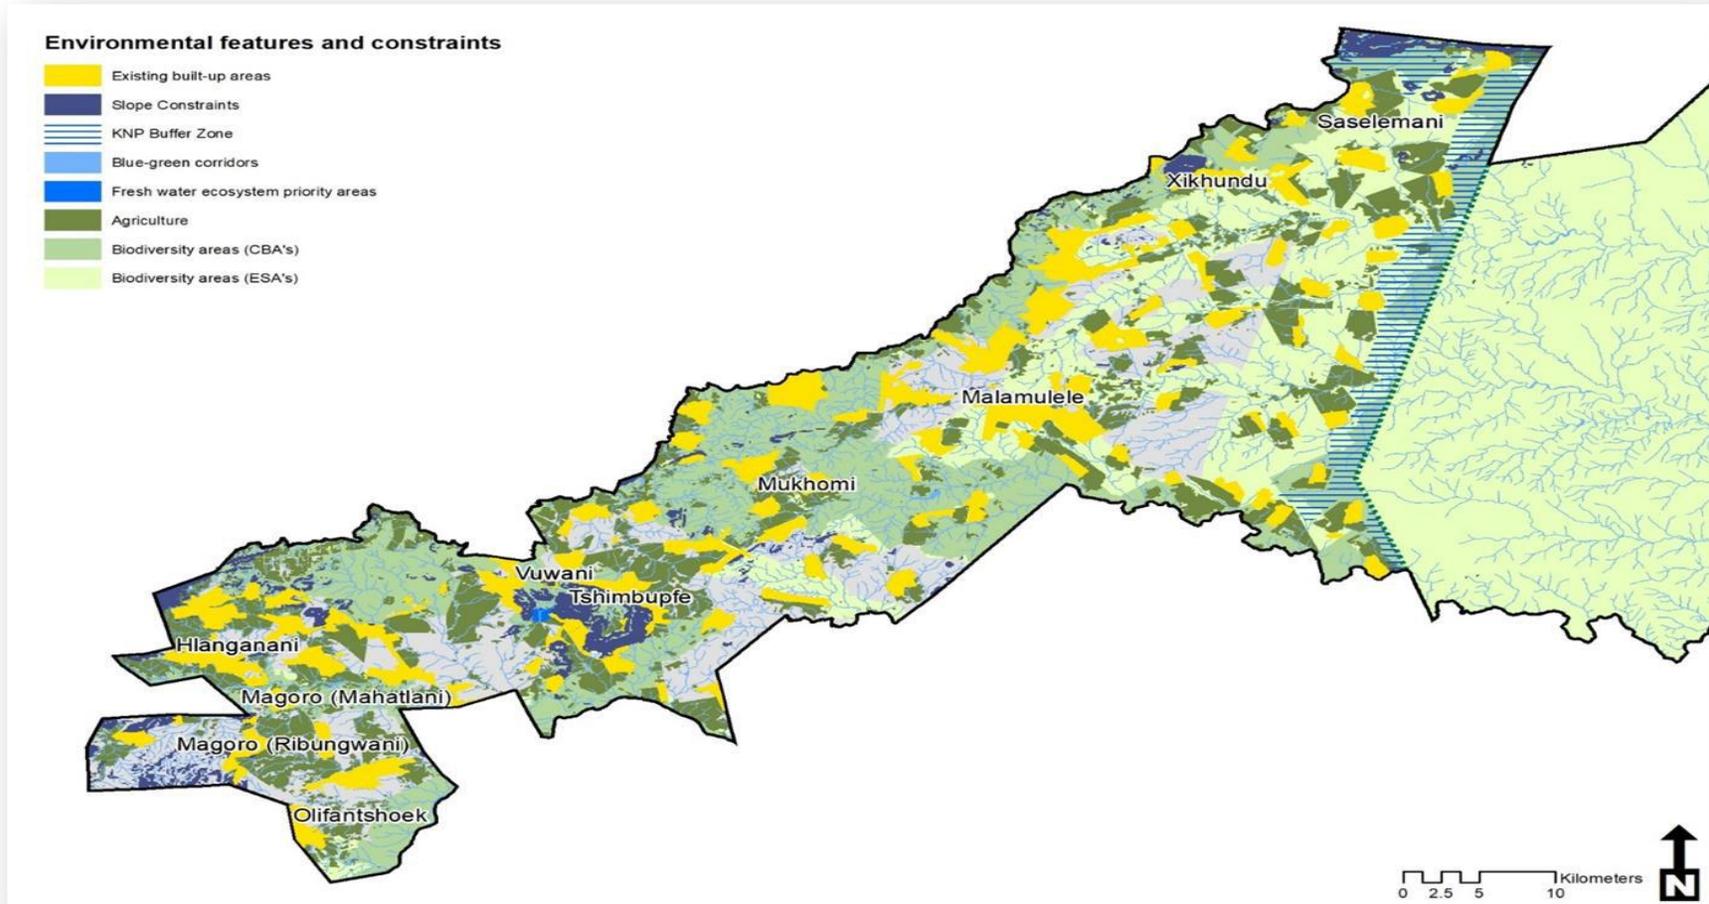

5.7. ENVIRONMENTAL ANALYSIS

Environmental Health Services

The service is not coordinated as an EHP is not appointed within the institution

The map below indicates the spatial representation of the Collins Chabane Local Municipality's environmental features and settlement arrangements.

5.7.1. Climate

Collins Chabane Local Municipality is located in an arid region and it has a very dry subtropical climate, specifically a humid subtropical climate with long hot and rainy summers coupled with short cool and dry winters. The climate here is mild, and generally warm and temperate. When compared with winter, the summers have much more rainfall. The area normally receives about 691 mm of rainfall per year, with most of rainfall occurring mainly during midsummer (WHE, 2016). Large variations are observed for seasonal temperatures; temperature can reach as far as 40^oc during summer time.

5.7.2. Rain Fall

Rainfall in the Municipality averages between 401 mm to 600 mm annually. The western parts of the Municipality averages between 601 mm to 800 mm a year which is the populated areas of the Municipality.

Figure 5.7.: Annual Rainfall

5.7.3. Climate Change

Collins Chabane Local Municipality like all municipality is also experiencing the global issue called climate change. Besides an increase in average temperature, climate change also causes significant changes in rainfall patterns, and an increase in extreme weather events giving rise to floods and droughts.

Collins Chabane Local Municipality's Environment and Waste Management unit has engaged SALGA Environmental Specialist on development of Collins Chabane Climate Change Mitigation, Response and Adaptation Strategies. SALGA will engage with multi departmental team on determining local climate change impacts, risks and vulnerabilities as well as municipal responsibilities on Climate change.

Water scarcity is now a generic challenge in the Collins Chabane Local Municipality together with the extreme hot weather conditions. Climate effects are also felt by crop farmers and the livestock farmers within the whole Municipality.

Focal areas such as ecosystems, livelihoods, economic activities, infrastructures, and utilities as well as public health and safety will mainstream climate change responses. This will allow for effective implementation of climate change responses on ground and strengthen climate change resilience within the Province. Vhembe District Municipality has also involved its local Municipalities to participate in the development of the District climate change adaptation strategy which is awaiting approval from the council.

5.7.4. Air Quality

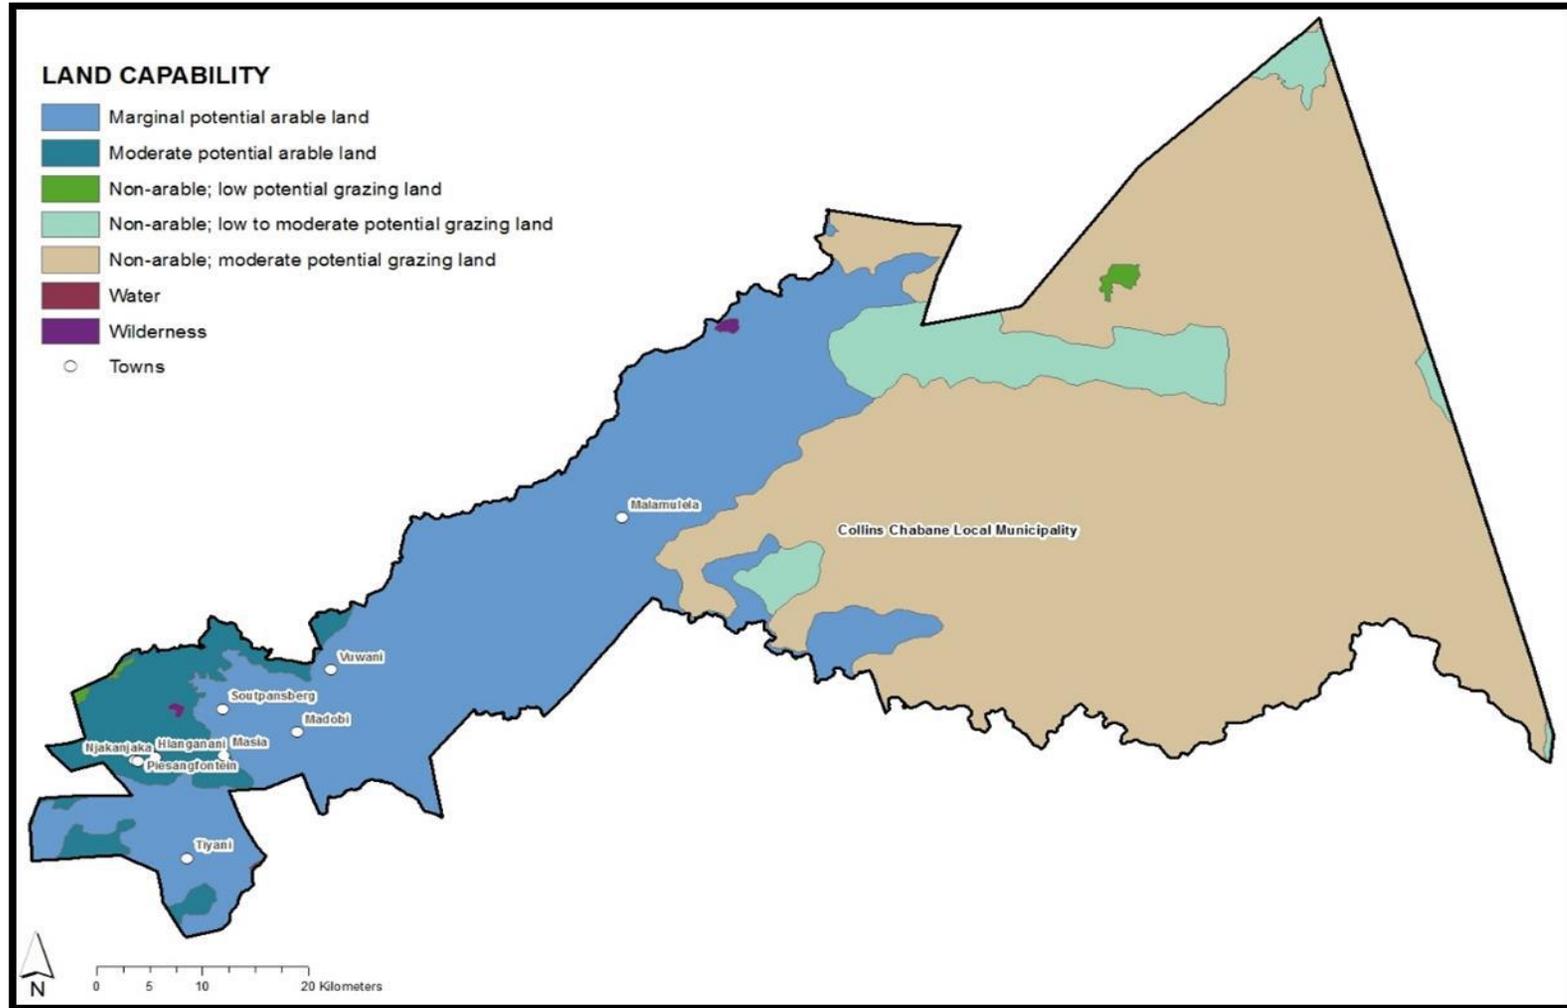

Poor air quality has a direct impact upon the health and life expectancy of our citizen and improving it is an ambition for all. Sources of air pollution in CCLM includes industrial activities which include burning coal, oil, and other fuels that causes air pollution, such as clay brick manufacturing, pot manufacturing businesses, fuel stations, charcoal manufacturing, boilers, and wood processing. Other contributors of air pollution are dust fallout at mine such as Fumani gold mine at Mtititi area.

Mobile sources are mostly associated with transportation and internal combustion engines with pollutants being emitted allow the path taken. These services include motor vehicles (light duty vehicles, heavy duty vehicles, road dust from unpaved roads. Vehicle tailpipe emission is the main contributors of hydrocarbons. Residential and commercial sources include emission from the following sources categories: wood stoves, backyard burning, households heating. And commercial sources include emissions from the following categories: Land clearing burning, unregistered restaurants, dry cleaning, building construction and demolitions.

5.7.5. Land Cover / Land Capability

Collins Chabane Local Municipality area has an amazing biological diversity of flora and fauna, this rich biological diversity can be attributed to its biogeographically location and diverse topography. The District falls within the greater savanna biome, commonly known as the bush veld with some small pockets of grassland and forest biomes. However, the map below shows that the western part of the Municipality consists of land with moderate potential for agricultural production. The eastern part of the Municipality has potential grazing land which is unsuitable for growing of crops.

Figure 5.8.: Land Capability

5.7.6. Hydrology

Collins Chabane Local Municipality has a moderately inadequate supply of both the ground and surface water. The area comprises of few catchments areas which are stressed by high demand of water for development activities such as agriculture, human consumption. Water management within the Municipality faces the following challenges: imbalance between the supply and demand for water, alien invasion, and inappropriate land uses in the river valley, the impact of fertilizers and pesticides, inadequate monitoring, poorly managed sewage systems, high concentration of pit latrines and droughts. Luvuvhu and Shingwedzi are the main rivers which are used to provide water to the population of Collins Chabane Local Municipality. There are also variety of wetlands within the Municipality, amongst them include the Makuleke wetland which is one of the RAMSAR recognized wetlands in the entire Limpopo. The most prominent feature within the Makuleke wetland include the riverine forest, riparian floodplain forest, and floodplain grasslands, river channels and flood-pains.

5.7.7. Geology

Collins Chabane Local Municipality area is unique due to its geological formations (predominantly sandstone). Collins Chabane Local Municipality has a fairly complex geology with relative high degree of minerals, and the minerals are found in dusters in varying concentration. The geology of the region comprises of Archean aged, granite- green stone terrain of the northern extremity.

5.7.8. Geomorphology

Geomorphology strongly controls land surface, hydrology and ecosystem. Geomorphic features observed in Collins Chabane Local Municipality are plains, low Mountain, and lowlands. The landscapes have been carved out by the meanderings and erosion activities. The soil in this region is as a result of Soutpansberg group of sandstones and smaller amount of conglomerate, shale and mostly basalt. The region also consists of deep sands to shallower sandy litho-sols, with a few limited areas displaying B-horizons soil properties.

5.8. HEALTH AND SOCIAL DEVELOPMENT

5.8.1. Health Services

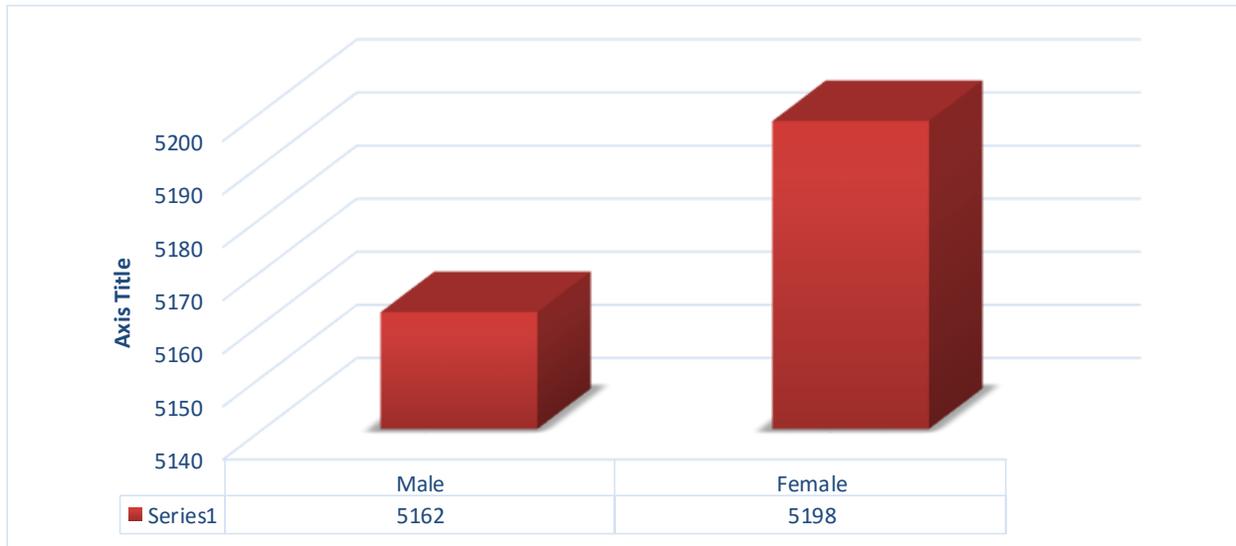

According to World Health Organization (WHO) set of standards, 1 professional nurse is responsible for 40 patients, 1 health facility (clinic) should be found within a 5km radius. The Municipality has got a radius of 5 467 216 m² which means that there is a huge backlog of Health facilities. Collins Chabane Municipality has 1 hospital, 3 health care and 32 clinics. There is a shortage of childhood centres, old age facilities and access to social grants are major challenges. The prevalence of Malaria in Vhembe District and Mopani, post a huge health risk for the Municipality.

5.8.1.4. HIV/AIDS

HIV and Aids still remains one of the major development challenges facing the Municipality. The connection between HIV, AIDS and TB can't be overemphasized. It is recorded that between March 2018 and April 2019 more than 380 people were diagnosed with HIV/Aids. This clearly shows the need to develop HIV/Aids prevention programmes for the Municipal area.

5.8.1.5. PEOPLE WITH DISABILITIES

As illustrated by figure 2.8.1, indicates that Collins Chabane Local Municipality has a very low number of disable people residing in the area. However, it indicates that the number of people who find it difficult to care for them self is more than five thousand (5000). More than seven hundred (700) people cannot take care of themselves. This indicates that the Municipality should plan for home base care centurms.

5.13.1.1. Community Safety Forum

The forum is working with SAPS and the Municipal traffic officers championed by the Department of Transport and Community Safety. Officers are deployed at taxi ranks schools, carwashes, public spaces and homes. This is done unannounced visits to the locations for searching of illegal weapons, drugs, stolen items and any all unauthorised items. The main reason for this forum is community safety and security of community members.

5.17. EDUCATION

According to standards of the department of Basic Education, a school should be located within a radius of 5km from the community it serves and the walking distance to and from school should not exceed 10km. Despite the 153 schools located within in the Municipal area, shortage of schools is still a huge concern. Provision of services such as water, sanitation and electricity in school is still a challenge.

5.17.1. EDUCATION PROFILE

Education is not only one of the main factors that contribute to unemployment, but is a key indicator of development in general. Collins Chabane Local Municipality has a high level of illiteracy, however it further suggests that despite the high illiteracy, people with Post – Higher Diploma/ Degrees is more than 3000.

There are 132 Adult Basic Education & Training (ABET) centers and 1 University. The rendering of quality education in the district is negatively affected by dilapidated and shortage of classrooms and administration blocks, lack of electricity, dilapidated and shortage of toilets.

5.17.2. Education Norms and Standards

According to the norms and standard, a school should be situated within a radius of 5km from the community it serves and the total walking distance to and from school may not exceed 10 km. CHAPTER 6: LOCAL ECONOMIC DEVELOPMENT

Local Economic Development is an approach towards economic development which allows and encourages local people to work together to achieve sustainable economic growth and development. This brings economic benefits and improved quality of life for all residents in a local municipal area. LED is also a “process by which public, business and non-governmental sector partner’s work collectively to create better condition for economic growth and employment generation”.

As a section, LED is intended to maximise the economic potential of all municipal localities throughout the country and to enhance the resilience of the macro-economic growth through increased local economic growth, employment creation and development initiatives within the context of sustainable development. The ‘local’ in economic development points to the fact that the political jurisdiction at a local level is often the most appropriate place for economic intervention.

With the above mentioned facts, Collins Chabane Local Municipality’s strived to support; encourage and/or to implement programmes to enrich its local people through the following initiatives: Cooperative(s) Support Grant Programme; Community Work Programme (CWP) and Extended Public Works Programme (EPWP). The programmes has been advanced as a critical solution for poverty alleviation; unemployment and previously disadvantaged individuals in most of Collins Chabane Local Municipality’s nodal points.

6.1. CCLM CO-OPERATIVES SUPPORT GRANT PROGRAMME

The Cooperatives Support Grant Programme have been implemented by the municipality, to address the socio-economic challenges within the Collins Chabane Local Municipality. However, it is urged to create positive hype to job creation locally. For the 2019/20 financial year an amount of R1 500 000 was budgeted and the same amount is budgeted for the current financial to continue with the support of the cooperatives. The support makes a significant strides in terms of job creation and the elimination of poverty among communities. Below are some of the existing Cooperative entities amongst others that are supported by the municipality.

Statistically, 92.9% depicts the employment created by Co-Operative entities within Collins Chabane Local Municipality whereas 7.1% are recorded as casual employees within the Cooperative entities throughout the CCLM nodal points.

6.2. BUSINESS BREAKFAST

The Municipality hosted its first successful business breakfast session under theme “growing local economy” It was held during the month October 2019.

The following gains has been derived:

- ❖ Local business people were able to engage on the imperatives and significance of local economy and how best they can contribute to job creation.
- ❖ Explored the opportunities that the local economy is presenting and how the make good out of those opportunities.
- ❖ Identify the impediment that contributes to slow economic activities in the local economy and came out with mitigating factors to counter the impediments.
- ❖ Network and share best practices.

Observing the COVID 19 regulation the 2020 Business breakfast could not sit but the municipality is on a plan revive it in the next financial year.

6.3. IMPLEMENTATION OF EPWP PROJECTS

The Expanded Public Works Programme (EPWP) is a nation-wide Government Programme aiming at drawing significant numbers of unemployed into productive work, so that they increase their capacity to earn an income. The Expanded Public Works Programme (EPWP) was initiated in 2004 with the primary goal of reducing unemployment across South Africa. The EPWP provides labour intensive employment created through the infrastructure sector, social sector, environment sector as well as the non-state sector.

These sectors under the EPWP therefore have a dual purpose namely, job creation and upgrading of infrastructure. The persistently high rate of unemployment in South Africa is one of the most pressing socioeconomic challenges facing the Government and Collins Chabane Local Municipality is not immune to these challenges. High youth unemployment in particular means young people are not acquiring the skills or experience needed to drive the economy forward.

Therefore, job creation and skills development remains the key priorities of the Collins Chabane Local Municipality. EPWP targets are set annually by the National Government, which the Municipality is expected to achieve. With the introduction of the EPWP phase III, the Municipality has performed well in terms of job creation, by achieving their target for the first year. Currently most jobs are created through Capital projects as well as Operational projects, and quite a significant amount of jobs are created through Water and Sanitation, Waste Management, Roads and storm water, Environment Management and Transportation Projects.

Collins Chabane is participating in EPWP Incentive grant programme. In 2017/2018 financial year the programme created 197 jobs opportunities and in 2018/2019 financial year 203 job opportunities were created. Electrification of Collins

Chabane Local Municipality's communities, and also Road Construction namely: DCO-Malamulele Hospital Road Construction, Mtswetweni/ Njhakanjhaka Ring Road; N'wamatatani Ring Road whereas Electrification community work is done for Menele and Mavambe communities together with infrastructure maintenance.

6.3.1. EPWP is divided into the following sectors

- ❖ Infrastructure-the sector is responsible for the maintenance of infrastructure and related projects
- ❖ Environmental and Cultural sector-the sector is responsible for town cleaning, waste collection, cemeteries cleaning and parks beautification
- ❖ Social Sector-the sector is responsible for the HIV programmes, Home-based care and security services

6.4. LOCAL SKILLS BASED

Skills-based is the practice of employers setting specific skill or competency requirements or targets. Skills and competencies may be cognitive (such as mathematics or reading) or other professional skills, often commonly called "soft" skills (such as "drive for results" or customer service).

The fact that the informal market is able to generate employment that is more than 50% in sectors such as trade, construction and manufacturing signifies huge potential for growth in CCLM. It further indicates that the economy in CCLM will not take long to boom should it stimulated with a good catalyst in a form of capital injection in sectors such as construction, manufacturing and trade (tourism and retail). Unemployment in CCLM was estimated at 20,41%, which is lower than the 27,1% National unemployment rate in 2017.

Figure 6.2.: Employment Sector

The graph shows both the formal and informal employment sectors. However, it shows that the highest employment sector offers community services. It is then followed by trade indicating that the Municipal trade industry must also be strengthened for it generate most jobs for the community. Agriculture also play a vital role in food production and employment though it is affected in none rain climate conditions.

The informal sector also plays a vital role on the Municipal economic grid. A high number of people is recorded on the trade industry being the major contributor of jobs and subsistence. Construction is also role player of creating employment in the informal sector followed by community services.

6.8. HOUSEHOLDS BY INCOME

This table below shows the number of households by income. A highest number of 13,100 households are earning for R30 000 - R42 000 when only 12 households are earning for R0 - R2400.

Figure 6.4.: Poverty Analysis

Source: IHS Market regional explorer version 1417

The poverty gap is used as an indicator to measure the depth of poverty. In 2017, there were 250 000 people living in poverty, using the upper poverty line definition, across Collins Chabane Local Municipality - this is 5.01% lower than the 264 000 in 2007.

6.9. LED Strategy

The Municipality has managed to develop an LED strategy which was adopted by the council by the end of the last financial year. The LED strategy is used as a municipal guiding principle to stimulate and grow local economy and ultimately create the much needed jobs by making better use of the available resources.

6.10. LED By-Laws

- ❖ The Municipality has managed to prepare the following By-Laws
- ❖ Carwash
- ❖ Street Trading
- ❖ Outdoor Advertising
- ❖ Tuck shop/ Spaza shop
- ❖ Hardware Storage

CHAPTER 7: MUNICIPAL FINANCE MANAGEMENT AND VIABILITY

7.1. FINANCIAL VIABILITY

7.1.1. Legislative Framework

The finances of the Collins Chabane Local Municipality are regulated by the following legislations:

- ❖ Local Government: Municipal finance Management Act No 56 of 2003.
- ❖ Local Government: Municipal Property Rates Act NO 6 of 2004.
- ❖ Division of Revenue Act.
- ❖ Municipal Finance Management Circulars issued by National Treasury.

Furthermore, the budget related policies of the municipality are taken into consideration with preparing and implementation of the budget to ensure financial sustainability.

7.1.2. Overview of Budget funding

Collins Chabane Local Municipality annually prepares the Medium-Term Revenue Expenditure Framework (MTREF) budget that is informed by the annual review of the Integrated Development Programme (IDP). The Budget is prepared in terms of Chapter 4 of the Municipal Finance Management Act (MFMA).

Section 17 of the MFMA requires that an annual budget must be a schedule:

- ❖ Setting out realistically anticipated revenue for the budget year from each revenue source.
- ❖ Appropriating expenditure for the year under different votes of the municipality.
- ❖ Setting out indicative revenue source and protected expenditure by vote for the two financial years following budget year.

In the preparation of 2020-2022 MTREF budget, the municipality considered its 2016/17 to 2018/19 and the current year's budget and interim performance for the year ended February 2019. Furthermore, the following factors were also considered.

- ❖ Line item budgeting
- ❖ Incremental budgeting
- ❖ Zero-based budgeting
- ❖ Programme budgeting and
- ❖ Performance budgeting.

Collins Chabane Local Municipality continued to report a positive cash flow from the 2016/17 financial year to date which was informed by the systems that have been put in place in the budget administration of the municipality. The budget of the municipality is divided into the revenue, operating expenditure and capital expenditure budgets and will be explained individually.

7.2. BUDGET AND TREASURY OFFICE

The Municipality has established Budget and Treasury Office as required by Section 80 of the MFMA. The department is presently led by the Chief Financial Officer with five managers in each unit, namely; Asset Management, Budget and Reporting, Expenditure, Revenue and Supply Chain Management units. The five managers are supported by eight accountants across the department.

FINAL REVIEWED IDP 2021/22 FY

The Municipality has approved all budget related policies as required by Municipal Budget and Reporting Regulations, however, standard operating procedures are still under review.

7.3. REVENUE MANAGEMENT.

The municipality bills and collects property rates and refuse removal services for Malamulele and Vuwani townships, surrounding farms and government institutions. Other sources of revenue include:

- ❖ Licenses and permits
- ❖ Agency fees
- ❖ Interest income
- ❖ Rental of facilities
- ❖ Traffic fines, penalties and forfeits
- ❖ Other income (sales of tender documents, licensing and renewal of spaza shops, clearance certificates)

The total average revenue collection rate of the municipality is currently at 18%, with 20% and 3% for Malamulele and Vuwani townships respectively.

The debtor's age analysis is comprising of the following:

- ❖ Commercial R 5 880 000
- ❖ Government R 35 367 000
- ❖ Residential R 48 582 000

Table 7.1.: Below is a summary of municipal revenue and sources over the past three years

	2016/17	2017/18	2018/19

Total	655 275 452	505 442 607	511 578 222

A growth of 1.9% was recorded between the financial years 2017/18 and 2018/19. The growth is due to increased allocations of grants and subsidies from national government. The municipality remains dependant on grants and subsidies with own revenue of 5.9%, 14.5% and 11.9% against grants and subsidies of 88.3%, 85.5% and 88.1% in 2016/17, 2017/18 and 2018/19 financial years respectively.

CHALLENGES

The following challenges were experienced:

- ❖ Billing not done as per the approved schedules
- ❖ Statements of account return by the Post Office,
- ❖ Lack of records for enquiries lodged by customers and
- ❖ Reconciliation between billing report and master valuation roll not performed on monthly basis.

7.4. OPERATING EXPENDITURE

The operating expenditure budget of the municipality is made of the following part MTREF period.

The municipality has appointed personnel mainly in the 2018/19 financial year, to enhance the employee related costs. Further appointments will be made in the 2020/21 financial year. There appointment of personnel which lead the increased activities in the municipality has had a direct upwards impact on the budget for other expenditure. In ensuring effectiveness and efficiency of expenditure management, the municipality has implemented amongst others, the following policies.

- ❖ Budget Policy,
- ❖ Cash Management Policy,
- ❖ Supply Chain Management Policy and
- ❖ Virement Policy.

Cost Containment measures are in place and focus on managing the following expenditure items:

- ❖ Travel and related costs,
- ❖ Catering and events,
- ❖ Travelling and subsistence and
- ❖ Overtime.

7.5. SUPPLY CHAIN MANAGEMENT SECTION

To enhance compliance with SCM Regulation 26 for Committee System for Competitive Bids, the following committees were established:

- ❖ Bid Specification Committee
- ❖ Bid Evaluation Committee
- ❖ Bid Adjudication Committee

To promote Good Governance, members of the committees are appointed while considering Section 117 of the Act. Furthermore, the SCM Code of Conduct was also circulated to all internal stakeholders.

Challenges

Lack of training for bid committees

Lack of confidentiality

Lack of personnel

Delays on appointment processes (Committees)

The municipality is still experiencing challenges of late appointments and sitting of bid committees. This has resulted in delayed appointments of service providers causing the Municipality not meet its targeted goals as per Service Delivery Budget Implementation Plan (SDBIP). Furthermore, there is generally lack of knowledge by bid committee members in leading to wrong bid specifications been submitted. From 2016/17 to 2021/20, the Municipality has cumulatively incurred:

- ❖ Unauthorised expenditure reported of R154 213,313
- ❖ Irregular expenditure of R51 589 064.00
- ❖ Fruitless and wasteful expenditure R814 298

7.6. BUDGET AND REPORTING SECTION

The Budget and Reporting section is comprised by the manager and two accountants. The Municipality has submitted all its section 71 reports for the period ending March 2020. There is however still challenges of accuracy of the data strings as required by the Municipal Standard Charts of Accounts (mSCOA) and Schedule C.

Attached as Annexure A: Is the Municipal Annual Budget

7.7. BUDGET RELATED POLICIES

The Municipal budget and Reporting Regulations requires the municipality to submit to council with the Budget, budget related policies. The following policies were revised and submit for approval by council.

- ❖ Supply Chain Management Policy
- ❖ Budget Policy
- ❖ Virement Policy
- ❖ Tariff Policy
- ❖ Rates policy
- ❖ Investment and Cash Management Policy
- ❖ Indigent Policy
- ❖ Credit Control Policy
- ❖ Asset Management Policy
- ❖ The municipality has appointed a service provider to finalize and ensure the gazetting of the by-laws.

7.8. ASSETS MANAGEMENT SECTION

The Municipality has established the Asset Management section as per approved organizational structure. There is a manager responsible for asset management however some of the asset management functions are been outsourced. As much as the Municipality's asset register is GRAP compliance, the asset register is mainly updated at year end.

Challenges

Lack of personnel

Decentralisation of fleet management and inventory section

7.9. EXPENDITURE MANAGEMENT SECTION

The Municipality has established the expenditure management unit presently having three officials, the manager and two accountants. Generally, the expenditure management section is functioning well, however, there are still challenges on payment of service providers within 30 days as required by section 65 of the MFMA. The fruitless and wasteful expenditure has from R1 125 367 in 2016/2017, R 740 286 in 2017/2018 and R814 298 in 2018/19 financial years. These represent the decrease from 2016/17 to 2017/18 financial year by 34% and a further increase of 10% from 2017/18 to 2018/19 financial year.

Challenges

Non-compliance to section 65(2) of the MFMA which states that all monies owed to the municipality be paid within 30 days of receiving the invoice or statement.

7.10. MSCOA

Collins Chabane Local Municipality is transacting on mSCOA. Reporting remains a problem and is a process that will be embark on in the 2020/21 financial year to ensure full compliance with mSCOA reporting requirements.

7.11. SOCIAL PACKAGE

The municipality has approved an indigent policy which makes it possible for provision of free basic service for qualifying households as determined by council from time to time. All qualifying indigents make an application to the municipality personally or through targeted method used by councillors and ward committee members. The qualifying indigent's households do not pay property rates, and refuse removal and receive 50 kWh per month from the municipality through Eskom. A budget is made available yearly through the equitable share allocation for the provision of free Basic Services.

CHAPTER 8: GOOD GOVERNANCE AND PUBLIC PARTICIPATION

Good governance is at the heart of the effective functioning of Municipalities. One of the objectives of Local governance is to encourage active citizenry in the matter of local government hence Local is everyone's business. One of the key pillars or performance area Back to Basic is Good Governance, Public Participation, and Ward Committee.

The focus of this pillar is to assess the running of council, establishment and functionality of the ward committees, assess the extent at which Public Participation is encouraged, and the level of corporate governance in the Municipality, therefore Municipalities are expected to use various form of systems in order to involvement communities in the matter of Local government.

8.1. COUNCIL AND COMMITTEES

The Council had adopted the Corporate Calendar for 2018/2019 which had to be used as a guide in all its Council Meetings and Section 79 Committees and other Council Committees. 33 Ward Committees out of the possible 36 Ward Committees have been established and are executing their responsibilities and/or functions except for 03 Ward Committees from the possible Ward Committees around Vuwani nodal point. EXCO meetings are held as per the Corporate Calendar. Financial Misconduct Disciplinary Board has been established and appointed by Council

8.2. PUBLIC PARTICIPATION AND COUNCIL SUPPORT

According to Section 16 (a), a municipality must develop a culture of municipal governance that complements formal representative government with a system of participatory governance, and must encourage, and create conditions for, the local community to participate in the affairs of the municipality.

The relationship between the Municipality and its stakeholders is very important. Stakeholders are not only local people. They include Sector Departments and their agencies, as well as people, organizations and institutions. Stakeholders include people and institutions that impact directly and indirectly on the organization, and they can include people who may not even be aware that they have a stake in the management of these organizations.

The primary aim of stakeholder *identification* is to name all those who could and should have a stake in a planning and management process.

The following is a list of key stakeholders for Collins Chabane Local Municipality

- Traditional Authorities
- Community
- Business Sector
- Traditional Healers
- Government Departments
- Education Sector
- Non-Governmental Organisations
- Transport Sector
- Labour Unions
- Financial institutions
- Farmers
- Civic organisation
- Religious groups

8.3. IMPLEMENTATION OF THE COMMUNICATION STRATEGY AND POLICY

Communication is an important element of Good Governance. It is through communication that the communities and other stakeholders are informed about the activities, challenges and achievements of the municipality and thereby getting empowered to participate in the affairs of the municipality. Section 18(a) of the Municipal Systems Act (Act 32 of 2000), a municipality must communicate to its community information concerning the available mechanisms, processes and

procedures to encourage and facilitate community participation. It further stresses the importance of communication between the Council and its communities.

The Municipality is currently implementing both the Communication Strategy and Communication Policy. The Communication forums and Mayor's Imbizos are organized on quarterly basis. Newsletter are distributed to all stakeholders on quarterly basis.

Due to the Covid 19 pandemic, the municipality is taking advantage of new electronic and social media channels as catalysts to improve the manner in which information reaches communities and other stakeholders. These include communication through mobile phones technology in the form of **What'sApp, Virtual Meetings, SMS, chat groups, Radio, Facebook, Twitter, and YouTube etc.**

8.4. RISK MANAGEMENT

Risk Management is one of Management's core responsibilities in terms of section 62 of the Municipal Finance Management Act (MFMA) and is an integral part of the internal processes of a municipality. It is a systematic process to identify, evaluate and address risks on a continuous basis before such risks can impact negatively on the service delivery capacity of a Municipality.

The Risk Management Policy, Risk Management Strategy and Risk Management Committee Charter were reviewed and approved. The Risk Implementation plan for 2019/2020 was submitted to the Risk Management Committee and approved by the Accounting Officer. The Strategic, operational, Fraud and mSCOA registers for the 2019/20 financial year were developed. Quarterly Risk Management reports were submitted to Risk Management Committee, Audit and Performance Committee

8.4.1. Top 10 Strategic Risks Identified

1. Ageing & insufficient infrastructure (e.g. Public Theaters, Libraries recreation facilities)
2. Theft and vandalism of municipal properties
3. Non-compliance to regulatory framework within OHS practices and Policy
4. Ineffective involvement of public in municipal processes
5. Illegal land use and illegal advertisement
6. Water scarcity
7. Low Revenue collection /Low Revenue Base
8. Inadequate ICT infrastructure (Not keeping with the current ICT developments)
9. Fraud and Corruption
10. Ineffective coordination of spatial planning

8.4.2. Risk Management Committee

The municipality has appointed the Chairperson of the Risk Management Committee in April 2019. The Risk Management Committee had one meeting in 2018/19 financial year.

The Risk Management Committee is comprised of the following members:

- Chairperson- Independent person not in the employee of the municipality
- All Municipal Directors-Members
- Manager: Risk Management Champion- secretary

8.5. INTERNAL AUDIT

According to chapter 14, section 165 of the Municipal Finance Management Act, 2003 (Act 56 of 2003), each municipality and each municipal entity must have an internal audit unit. Collins Chabane Local Municipality has a fully functional Internal Audit Unit established in terms of the Act. The primary objective of Internal Audit division is to assist the Municipal Manager and the Audit and Performance Audit Committee in the effective discharge of their responsibilities. Internal Audit provide them with independent analysis, appraisals, recommendations, council and information concerning the activities reviewed, with a view to improving accountability and service delivery.

Section 62(1) (c) (ii) of the MFMA requires internal audit to operate in accordance with prescribed norms and standards. This would imply that Internal Audit Activity should apply the Standards for the Professional Practice of Internal Audit (SPPIA) in the execution of its functions.

The purpose of the Standards is to:

- Delineate basic principles that represent the practice of internal auditing
- Provide a framework for performing and promoting a broad range of value-added internal auditing
- Establish the basis for the evaluation of internal audit performance
- Foster improved organisational process and operations

8.5. 1. Audit Committee and Performance Audit Committee

The Municipality established Audit and Performance Committee. The Audit and Performance Audit Committee (APAC) is a committee of Council primarily reputable to provide independent specialist advice on financial performance and efficiency, compliance with legislation, and performance management. A combined committee was appointed to represent both Performance Audit and Audit Committees in compliance to section 166 of MFMA no 56 of 2003 and section 14(2) of Municipal Planning and Performance Management Regulations. The Audit and Performance Audit Committee must liaise with Internal Audit in terms of Section 166(3) (a).

The Audit and Performance Audit Committee must ensure that the strategic internal audit plan is based on key areas of risk, including having regard to the institution’s risk management strategy. The Committee reviews the work of Internal Audit through the internal audit reports. APAC operate in terms of approved Charter which outline the role, responsibilities, composition and operating guidelines of the committee of Collins Chabane Local Municipality and report to Council quarterly.

8.5.2. Internal Audit Policy Documents

Internal Audit Charter and Internal Audit methodology developed and approved by the Audit and Performance Committee.

8.5.3. Risk Based Internal Audit Plan

The three-year internal audit plan was developed so as to mitigate all audit risks and corrective measures thereof. It was approved by the Audit and Performance Committee. Annual internal audit plan was developed, approved and is currently being implemented. There is a plan to outsource some of the projects since the unit is not adequately resourced.

8.6. AUDIT AND PERFORMANCE COMMITTEE

The municipality has appointed Audit and Performance Committee, sadly the Municipality lost one member due to bereavement, however, an additional member with IT Expertise has been appointed. The Committee is meeting on a quarterly basis. Audit and Performance Committee charter was developed and approved by Council.

8.7. EXTERNAL AUDIT

The municipality has improved from a Qualified Audit Opinion to an Unqualified Audit Opinion, however, an Audit Action Plan has been developed and it is monitored by the internal audit and management on month basis to ensure improved audit opinion. **The Audit Action Plan is Attached the to IDP as Annexure C**

9.8. PERFORMANCE MANAGEMENT SYSTEM

Chapter 6 of the Local Government: Municipal Systems Act makes provision for the establishment of the performance management system in municipalities. The establishment of the performance management system is meant to assist the municipalities to monitor, measure and evaluate its performance against its developmental targets that are set in the IDP. Performance management is a systematic process by which a municipal organisation involves elected representatives, administration and communities in improving organisational effectiveness in the accomplishment of legislative mandates and strategic imperatives. It is intended to manage and monitor service delivery progress against the identified strategic objectives and priorities in the IDP.

The Municipality developed and approved the Performance Management Framework Policy and it is currently under implementation. This is where the Service Delivery and Budget Implementation Plan (SDBIP) is developed. The development of the SDBIPs is a requirement under the Municipal Finance Management Act (MFMA) and gives effect to the Municipality’s Integrated Development Plan (IDP) and annual budget.

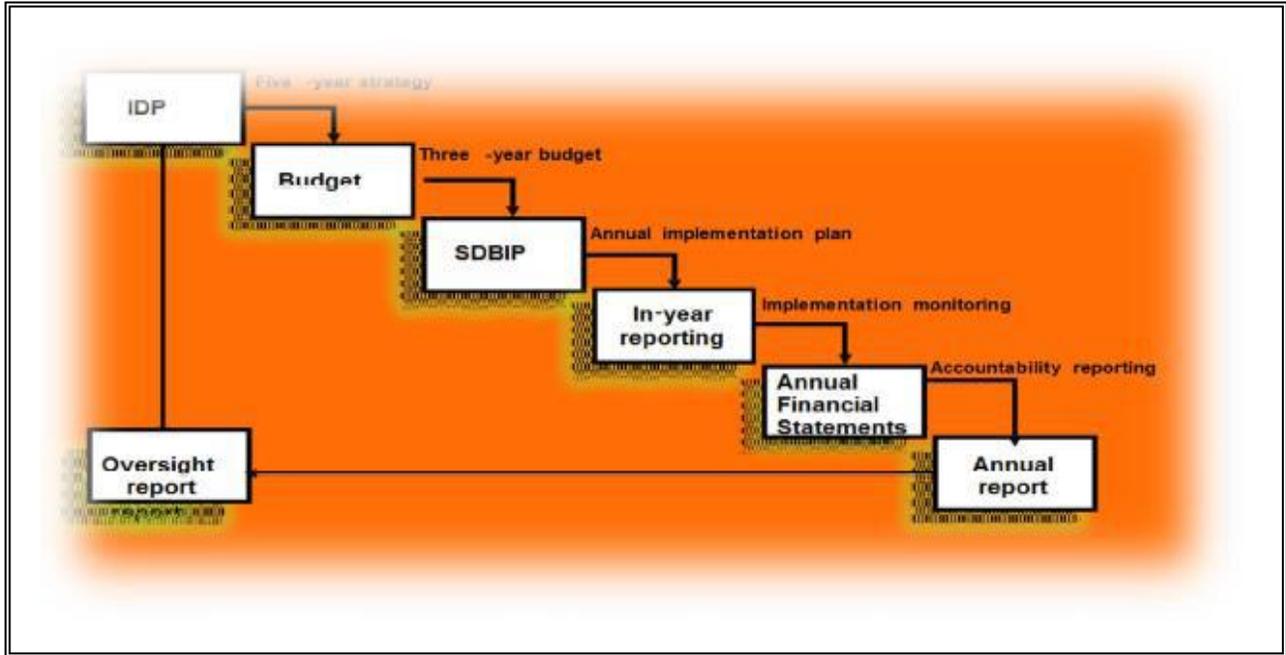

The SDBIP is an expression of the objectives of the Municipality, in quantifiable outcomes, that will be implemented by the administration for the municipal financial year. The SDBIP includes the service delivery targets and performance indicators for each quarter that should be linked to the performance agreements of senior management.

The 2020/21 SDBIP was signed by the mayor on the 28 June 2020 and submitted to COGHSTA and also uploaded on the website as per MSA 32 of 2000. All senior Managers has signed Performance Agreements for 2020/21 Financial Year and Performance Agreements were uploaded on the website and submitted to COGHSTA. The Municipality is currently implementing PMS at organizational level inclusive of Senior Management and managers and it will be cascaded down to all employees in phases.

The automated PMS system has been procured and employees are currently undergoing training. Performance management report are been submitted on quarterly basis and uploaded on the website. Performance committee is not yet established, however the municipality is utilising audit committee to perform the responsibilities of performance audit committee.

9.8.1. Linking Planning , Budgeting, Implementation

The IDP implementation process links Budget and the SDBIP. Below is the process flow that links Planning, Budgeting and SDBIP.

9.8.2. Cascading of Performance Management System to Lower Levels

Performance Management System is not yet cascaded to levels below Sec 54/56 Managers, however upon finalization of the automation system the Municipality will be assessing all employees.

9.9. SWITCHBOARD OPERATION

The switchboard is based on the DCO Office only. It does not control lines in the traffic and civic centre. There is a need to create telephone lines in the civic centre.

9.10. LEGAL SERVICES

Collins Chabane Local Municipality has established a Legal Services Unit/Division to render legal advice. Empirical evidence of constraints confronting the Municipality from its Legal Services Unit/Division include persistent litigation with cost implications. Such litigation has as its chief causal factors, among others, the following:

The revolution of rising expectations on the part of inhabitants of the jurisdictional area of the Municipality – cases in point being expectations by many people to be appointed as employees of the Municipality and often followed by institution of legal proceedings by unsuccessful job applicants; and

The increasing litigiousness of a significant portion of the population within and outside the jurisdictional area of the Municipality. Imperatives of neo-constitutionalism have since turned most South Africans nationwide to be adept at converting any issue into legal issues for adjudication by the courts.

9.11. MUNICIPAL TRANSFORMATION AND ORGANISATIONAL DEVELOPMENT CHALLENGES

Table 9.11.: Municipal transformation and organisational development challenges

SECTION B: STRATEGIC PHASE

CHAPTER 10: STRATEGIES

10.1. BACKGROUND

Collins Chabane Local Municipality held its Strategic Planning Session from the 4th to the 7th December 2020 at Tzaneen Country Lodge. Stakeholders that constituted the session ranged from Traditional Leaders, Portfolio Head, Municipal Manager, Senior Managers, Managers, Sector Departments and officials to discuss on the future development direction.

The purpose of the Strategic Planning was to highlight on the Situational and Needs Analysis for Collins Chabane Local Municipality and come up with strategies to ensure service delivery and the prioritisation of services to address community needs within the jurisdiction of the Collins Chabane Local Municipality.

Collins Chabane Local Municipality's vision, mission statement and strategies were reviewed and no changes were made. These are still to fulfil objectives of service delivery through the Integrated Development Planning. Strategies were developed on how to address all the needs of the Communities, by prioritising them and came up with projects. The Municipal SWOT analysis was reviewed to project the status quo of the Municipality.
